Re: **ET Docket No. 95-183, RM-8553, PP Docket No. 93-253**

**MEMORANDUM OF NON-RESTRICTED ORAL EX PARTE PRESENTATION**

Advanced Radio Telecom Corp., by its attorneys, met on this date with Ms. Jackie Chorney, Legal Advisor to Chairman Hundt, at the Commission's offices. The presentation was limited to a discussion of the proposed amendment of the Federal Communications Commission's Rules related to the licensing of spectrum in the 38 GHz frequency band, as contained in the Commission's *Notice of Proposed Rulemaking* in ET Docket No. 95-183, RM-8553, PP Docket No. 93-253 (released December 15, 1995) and collateral issues concerning spectrum sharing and interim operating authority. The materials attached hereto were distributed at the presentation and were also discussed during the course of the presentation.

Pursuant to Section 1.1206(b)(5) of the Commission's Rules, *ex parte* restrictions do not apply to the instant presentation (*see*, 47 C.F.R. 1.1206(b)(5)), however, in accord with Commission Rule Section 1.1206(a), Advanced Radio Telecom Corp. hereby files this disclosure (*see*, 47 C.F.R. 1.1206(a)). The original and four copies (two for each Docket number) of this disclosure have been submitted to the Secretary's office.

Respectfully submitted,  
ADVANCED RADIO TELECOM, CORP.

  - Omni-Directional (sectorized)
- Multimedia

## **CUSTOMERS:**

- Strategic Relationships with CLECs
  - Small Business and Residential

# RECOMMENDATIONS

---

## 1. ACT IMMEDIATELY TO MAKE ADDITIONAL SPECTRUM AVAILABLE TO 39 GHZ PROVIDERS

- a. Auction remaining 39 GHz
- b. Permit Interim Operating Authority

[There is significant demand from CLECs and PCS providers in areas without 39 GHz authorizations.]

## 2. DENY MOTOROLA PETITION FOR SEPARATE RULEMAKING

- a. Concerns of satellite providers can be addressed in existing 38 GHz rulemaking
- b. Whatever Commission does, it **cannot permit sharing** of spectrum between satellite downlinks and terrestrial microwave.
  - i The restrictions upon 39 GHz would be unacceptable and require substantial changes in present and proposed (point-to-multipoint) operations

# RECOMMENDATIONS

(continued)

---

## 3. IMPOSE CONSTRUCTION STANDARDS

18 months -----1.0 Mbps per each 750,000 segment of the population

48 months ----- 3.0 Mbps/750,000 population

60 months ----- **4.0 Mbps/750,000 population**

[minimum of 1.0 Mbps in 18 months regardless of population]

a. These criteria would be applied to each authorized 39 GHZ service area in the aggregate, on a channel by channel basis. The licensee would have to have a commercial contract in effect at the time of the benchmark. The time lines would be measured from the date of Commission adoption of the proposal.

b. Apply to new licensees by auction as well as incumbents.

## 4. REIMPOSE A REPORTING MECHANISM

a. At each construction benchmark, the licensee should be required to certify that it has met the standards.
