Dear Dianne:

Just a quick note to thank you for your commitment to the Betty Brinn Children's Museum and to let you know how much we appreciate your support of our programs and exhibits through "Que Pasa."

As you know, our Museum opened to the public just over one year ago and the community support we have received to date is tremendous. Our mission is to serve all children in the Greater Milwaukee area, and we are especially grateful to TV46 in helping us to reach out and serve the Hispanic community. As a result, our attendance has enjoyed the broad diversity that is Milwaukee.

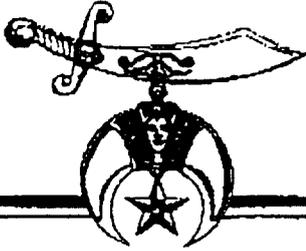

I will continue to direct our calendar of events and exhibits information to you. Thanks again for your never-ending enthusiasm and interest.

Sincerely,

Gabriella Bonert

Dear Ms. Dunn:

We would like to express our sincere appreciation for the ongoing support your station gives to Shriners Hospitals for Children. The public service announcements you run enable us to reach a targeted Hispanic audience with our important message about the free medical care offered to children.

Thanks to your station's efforts we are able to communicate with the families of many children with orthopaedic problems, burns and spinal cord injuries and make advanced medical treatments available to them through our network of 22 specialty hospitals in North America.

Shriners Hospitals for Children will celebrate its 75th anniversary next year and we are grateful for your efforts and the important role you have played in helping us achieve this milestone.

Sincerely,

Dear Diane,

Just note to thank you and the TV46 staff for helping us reach the over 80,000 Hispanic people in Milwaukee. As a health care provider with 33 clinics in the state of Wisconsin, we serve individuals from many cultures. That includes Spanish-speaking people in the Milwaukee area, people who need to know that quality, affordable health care services are available in their community. We rely on your station to provide information about the health care and education services Planned Parenthood offers, as well as news about other important community services and opportunities.

Thanks again for you assistance to us and to the ever-growing population of Hispanic people in the Milwaukee area.

Sincerely,

Dear Mr. Zomaya:

I would like to take this opportunity to express my sincere appreciation for helping the Cesar E. Chavez Drive Renaming Committee with its efforts in promoting general public awareness about the effort to rename a public street after the late Civil Rights leader Cesar Chavez in Milwaukee. The program called "Que Pasa" (What's Happening) helped get the word out about our historic efforts to honor a Hispanic publicly for the first time in the City of Milwaukee and State of Wisconsin. It is important that programs like "Que Pasa" exists because Hispanics in the State of Wisconsin have such limited access to media.

I can only hope that your television station continues to provide this much needed public service to a community which is often neglected by the major television networks.

Very truly yours

Dear Diane:

It has come to my attention that the FCC may change the ruling with regard to lower power television stations. I wanted to take a moment to show my support of Channel 46. My analogy to this situation is that in an ecosystem, not all the small fish are swallowed up by bigger fish. Lets hope this maintains in the sea of television stations.

It would be a shame if this, in fact, does happen. There are very few opportunities that directly benefit smaller organizations or communities. For example, your locally produced program, *Que Pasa*. This is the only public service tool that updates the local Hispanic community of local current events and activities.

Please advise me if I can be of any assistance in Channel 46's defense.

Dear Mr. Henry Sifuentez:

On behalf of Mexican Fiesta and the Wisconsin Hispanic Scholarship Foundation Inc. I would like to express our sincere appreciation to you and your company for the support Mexican Fiesta received for the 1995 festival year. This year Mexican Fiesta attendance record went up to 20%. This festival would not have been a success without your Sponsorship.

Furthermore, since 1978 Mexican Fiesta has awarded over \$75,000 in Scholarships. Thanks to your generous Sponsorship Mexican Fiesta was able to award a total of \$12,500 in scholarships on August 26, 1995 at the opening ceremony to 29 deserving academically Hispanic students.

Once again, Thank you for your Sponsorship. If you have any comments or suggestion on how we can improve our festival please call us at 383-7066. We hope to be able to count on your support for the upcoming year.

Dear Peter,

Thank you for your continued support of the March of Dimes. It is very important to our organization that information on preventing birth defects is made available to the total population. Your station provides us with our only access to the Hispanic community through television. No other channel is airing our PSA's in Spanish. With the number of births in the Hispanic population increasing, it is extremely important to the March of Dimes that we continue to have you as a partner in our Campaign for Healthier Babies.

Dear Dianne,

The access your station provides us to Milwaukee's Hispanic community has been helpful. We have been able to communicate information about several training programs we have, targeting the Hispanic Community. "Que Pasa", your public service segment, is a great place for us to reach community people to join our training programs, to make use of our services - including our ballroom and restaurant.

We look forward to continuing this partnership in 1997, in light of Wisconsin's Welfare Reform W2, it is important that we get training to low income and unemployed people. Your station can help us make sure that this happens.

On behalf of the City of South Bend, I would like to lend my support for WBND Channel 58. WBND provides an ABC and UPN affiliate to South Bend and the surrounding area.

WBND is a valuable local resource with the community-related services and announcements they provide to South Bend residents. They have been a great assistance in helping to promote City-related information and events as a public service. Additionally, they are an important alternative for our local viewers and advertisers. It would be a great advantage for our citizens to have WBND become a full-powered ABC affiliate in our community.

Thank you for the opportunity to lend my support of WBND, and if there is anything additional I can provide, please feel free to contact my office.

To Whom It May Concern,

I write in support of WBND, Channel 58. WBND provides an ABC and UPN affiliate to the South Bend and Elkhart communities. Without WBND, programs associated with these affiliates could not be broadcast in our area. Our community felt the loss of such programming acutely during the transition of the former ABC affiliate, WSJV to FOX. WBND is filling the void left by this transition.

WBND is also a source of local information, providing not-for-profit organizations free advertising for community events in its Community Calendar. This calendar is an effective tool used by viewers of WBND to keep abreast of the many exciting programs our area has to offer.

Finally, WBND provides viewers with alternative quality programming while providing local and national advertisers a broader spectrum of potential patrons. Once again, I am pleased to support WBND.

Sincerely,

To Whom It May Concern:

It is a pleasure to report how well WBND-TV Channel 58 has integrated itself into our media mix and become a "player" in the regional Michiana community. As is well known, this station is an affiliate of ABC and UPN and provides those affiliations to the South Bend/Elkhart/multi-county area.

As another option in our mix of locally available stations, WBND provides viewers, local advertisers, and national advertisers with one more alternative, thereby improving the quantity and quality of offerings here. What might not be as well known is how WBND has quickly established itself as a resource for information regarding civic and important not-for-profit activities. One tool the station utilizes in this regard is the Community Calendar, which promotes important activities at no cost. Even while still operating as a low power station, WBND is having a positive impact. It is obvious to those of us in the market area that, if allowed to be a high power station, WBND could play a greater and even more positive role. Numerous parties have commented that the stations ability to expand programming and provide better reception to their viewers is important to them.

This market area is strong, vibrant in its inter-relationships, and growing. We hope that it is possible for WBND to grow in its contributions to this growing area, with one way to do that being allowing it to increase its power. Please don't hesitate to contact me if you would like information regarding our regional community, market area, and/or WBND's positive role in it.

To Whom it may concern,

WBND-58 is the local ABC affiliate in the Michiana area, which encompasses the broadcast range around the City of South Bend Indiana. The South Bend Area Crime Stoppers Program is ever grateful to WBND-58 because of their public service concerns for our city as well as the whole of the Michiana area.

WBND-58 provides, as a public service, the air time for our Crimes of the Week. The Crime of the Week, is a re-enactment of a crime which took place in our community. When the public views the Crime Of The Week, on television, it brings in information about the suspect of the crime to Crime Stoppers so that we can help the local law enforcement agency in the solving of the case. Our Program has solved over 4,000 felony crimes in the South Bend area, and we attribute the success to a very good relationship with WBND-58 and other local media sources.

WBND-58 provides a valuable service to the South Bend Area, and we feel that it is a powerful resource in our community.

To Whom It May Concern:

The Elkhart City Police Department is one of many community agencies which are indebted to WBND-58 (the local ABC affiliate in this area). WBND-58 has exhibited a commitment not only to public service, but to the citizens of our community.

WBND-58 has consistently supported Crime Stoppers' Crime of the Week. The re-enactments portrayed (made possible by WBND-58) have, in many instances, proven instrumental in garnering pertinent crime information. The positive support received by law enforcement agencies from WBND-58 is invaluable to the success of our various community policing initiatives.

Without a doubt, WBND-58 is one of our communities most important assets. WBND-58 serves as a valuable source of information regarding various community events and occurrences.

I am writing this letter in support of WBND, our local ABC affiliation and UPN associate. WBND provides a very valuable service for our organization as well as the residents of Elkhart County by allowing us to advertise our community screenings through the community calendar at no charge. Being a not-for-profit agency, our funding is limited and therefore it is often a challenge to find low-cost ways for promoting our programs. WBND helps us to serve the public better by increasing awareness of events sponsored by the Health Department.

WBND has made it possible for us to reach a broader market of people enabling us to deliver low cost preventive services for at-risk populations. Many other organizations also rely on WBND as well. Please continue to support WBND and all that it does for our community.

To Whom It May Concern:

When South Bend was about to lose its ABC affiliate, WBND stepped in and took up the slack. I think it is very important for a metropolitan area as large as South Bend to have broadcast access to all of the national network systems. This is particular important for national news services because there are so few national sources of news available through the telecasting media. To lose one of these outlets would do a serious disservice to the South Bend community.

I am a member of the board of directors on a not-for-profit organization. Our group is very dependent on the use of public service announcements to get its educational message out to the public. To be effective, our messages need to be delivered by many different broadcast services. Therefore it is important to us to continue to have WBND in our market area and we look forward to working with them in the development of public service announcements for our organization.

Sincerely,

To Whom It May Concern:

On behalf of the South Bend Symphony Orchestra, I would like to thank you for the services Weigel Broadcasting provides to the Michiana area.

As a not-for-profit organization, we are especially grateful for the "Community Calendar" announcements on WBND-TV which help us inform the public about our events. Having an ABC affiliate in the area not only offers residents more viewing choices but also gives local, regional, and national businesses a means to advertise their products and services. The efforts of Weigel Broadcasting have been noticed and are appreciated. You are to be commended.

The South Bend Symphony Orchestra thanks you for your continued support of the community. We look forward to watching you grow.

Sincerely,

Kari M. Sonnichsen

South Bend, IN 46617

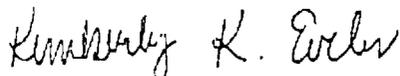

To Whom It May Concern:

On behalf of the Northern Indiana Center for History, I want to acknowledge to WBND-TV their efforts in promoting through their Community Calendar events and programs such as the ones we have at the Center for History.

As a not-for-profit organization, it is very helpful to us that WBND-TV does not charge for promoting these kinds of events through this public service.

We also are aware of the benefit of having different options for television viewers in our attempts to reach the community in a variety of ways, and in this respect, WBND-TV is vital to the community's marketplace.

Sincerely,
