Mr. Werbach-

My name is Connie Letien. I am a regular user of a program called Freetel. I am not a professional in the field of law, the Internet or of regulations, but I must request your time on this one issue.

In all the time I have used Freetel, I have met many differant and (usually) wonderful people. It is an avenue for peoples to meet and come to a common ground on some things.. Like the fact that we are not that differant in most areas. Mow I am not claiming to be doing any major moves to world peace but every step helps. It is a shame that some people feel that everything should be governmentally charged and I am very opposed to the idea. I would hope that you would take this into concideration when you decide on what moves you will take. Connie Letien
