**A107. OBSOLETE SERVICE OFFERINGS - COIN TELEPHONE SERVICE**

**A107.1 Reserved For Future Use**

**A107.2 Semipublic Telephone Service Equipment**

**A107.2.1 Definition And Requirements**

(Obsoleted 10-16-96, Type 2. Not offered for installations on or after October 16, 1996.)

- A. Semipublic telephone service is that class of individual line exchange service furnished in locations which in the judgment of the Company are reasonably accessible to the public. It is not intended as a substitute for other service or as a means of providing an alternative service at a lower charge. Semipublic telephones are furnished if the nature and amount of usage indicate that it is suited to meet requirements at the following types of locations, and at the option of the Company.
  - 1. Where there is an appreciable demand for service on the part of transients but where in the opinion of the Company, the installation of a public telephone is not warranted.
  - 2. Where there is a collective use of the service by a relatively stable body of guests, members of clubs or transients.
  - 3. Where the demand for service is for a combination of customer and transient usage.
- B. Subscribers may display telephone signs furnished by the Company and allow the use of the station to the general public.
- C. The Company may terminate service at locations where in its judgment losses by theft are likely to occur, unless the subscriber executes an agreement to indemnify the Company against such losses.
- D. Semipublic service will be equipped with or without a coin box.
- E. The Company has the right to require the subscriber to redeem all slugs and spurious, mutilated or foreign coins deposited in the coin collecting device at the value for which they were deposited therein and to make good all losses due to theft or fraudulent practices. In the event the subscriber refuses to redeem such slugs and spurious, mutilated or foreign coins or to make good all losses due to theft or fraudulent practices, the Company may forthwith disconnect and remove its telephone and coin collecting device.
- F. The Company may at its option, terminate this service to a subscriber when the amount of usage is considered insufficient for its continued provision.
- G. Non-coin semipublic service is furnished to a subscriber upon the condition that use of the service by others shall not be made subject to any charge by the subscriber in addition to the rates and charges of the Company as set forth in applicable tariffs.
- H. For customers subscribing to Caller ID - Deluxe, as specified in A13.19.5.B. of this Tariff, if the incoming call originates from a Company semipublic telephone, the name information transmitted will always be "Pay Phone".

## A7. COIN TELEPHONE SERVICE<sup>1</sup>

### A7.1 Public Telephone Service

#### A7.1.1 Definition and Purpose of Public Telephones

A public telephone is an exchange station installed with or without an associated coin collecting device at the Company's initiative or at its option, at a location chosen or accepted by the Company as suitable and necessary for furnishing service to the general public. Public telephones are installed for the use of the general public and their use by any occupants of the premises in which they are located is only incidental to their principal purpose.

#### A7.1.2 Public Telephone Locations and Requirements

- A. The Company recognizes its responsibility for providing adequate telephone facilities to meet all reasonable public requirements, and the decision as to the extent, character and location of the public telephone facilities rests with the Company.
- B. In the selection of premises the Company endeavors to secure the most suitable of those available for the purpose, public convenience considered. The character of the premises or the location of the equipment should not be such as to offer risk to the Company's equipment or receipts.
- C. For customers subscribing to Caller ID - Deluxe, as specified in A13.19.2.H of this Tariff, if the incoming call originates from a Company public telephone, the name information transmitted will always be "Pay Phone".

#### A7.1.3 Equipment

- A. Public telephones are ordinarily connected with individual lines and are equipped with coin collecting devices; however, at the option of the Company, public telephones without coin collecting devices may be furnished at the Company's option for the placing of collect, credit card or third-number billed calls.
- B. Booths are furnished when in the judgment of the Company they are warranted by the estimated amount of traffic, or by the character of the location, as in lobbies, waiting rooms, etc.
- C. Extension stations are not furnished in connection with public telephone service.
- D. In all cases, the Company furnishes and displays such of its standard signs as are necessary to properly identify the station.
- E. The equipment specified in A7.2.4 following is considered customer premises equipment under the FCC's decision in CI-II (Docket 20828) but has been assigned to the Company under the Modification of Final Judgement (MFJ). Its provision will be subject to the following restrictions:
  1. The Company will continue to provide maintenance for Company provided customer premises equipment only until December 31, 1987, or such earlier date as may be necessary and appropriate to comply with applicable state or federal laws, rules, or regulations.
- F. **A7. COIN TELEPHONE SERVICE<sup>1</sup>****A7.4 Public Telephone Access Service For Customer Provided Equipment (CPE)****A7.4.1 General**

- A. Public Telephone Access Service for CPE is an exchange line service provided at the request of the subscriber for telecommunications use.
- B. Public Telephone Access Service for CPE is provided for use with customer provided telephones.
- C. The carriage and completion of all local dialed calls including operator service functions, are provided by the Company. Dialed calls are defined by those digits entered by the end user which control the routing of the call. Modification or translation of these digits on any local call is not allowed.
- D. Public Telephone Access Service for CPE is provided subject to the condition that telephone messages (local and long distance) placed from stations which are accessible to the public are completed over Public Telephone Access Service for CPE lines (or other Public or Semipublic lines). Where Public Telephone Access Service for CPE is furnished, any type or grade of residence or business service offered regularly at that location may be furnished in addition, provided such residence or business service is confined to locations solely for use by the particular establishment.
- E. Customer-provided public telephones may not be attached to other types of access lines. A subscriber must order a separate Public Telephone Access line for each CPE public telephone installed and will be billed the Tariffed rate for each line.
- F. Public Telephone Access Service For CPE will only be provided as Two-Way service, except lines placed in correctional institutions, schools, hospitals and other locations for which a specific exemption has been granted by the Public Service Commission. There will be no charge imposed for incoming calls.
- G. Participation of subscribers to Public Telephone Access Service for CPE in optional EAS plans is not allowed.
- H. For customers subscribing to Caller ID - Deluxe, as specified in A13.19.2.H of this Tariff, if the incoming call originates from a customer provided public telephone, the name information transmitted will always be "Pay Phone".

**A7.4.2 Responsibility of the Subscriber**

- A. The subscriber shall be responsible for the installation, operation and maintenance of any customer-provided telephones used in connection with this service.
- B. The customer shall be responsible for payment of a nonrecurring charge as specified in Section A15. of this Tariff for each visit by the Company to the customer's premises solely to determine that the service difficulty or trouble report results from the use of equipment or facilities provided by the customer.
- C. Customer-provided telephones must be connected to the Company network in compliance with Part 68 of the FCC Rules and Regulations as well as regulatory requirements of the Florida Public Service Commission and certification requirements of the State of Florida. The telephones must have the following operational characteristics:
  1. Must be able to access the "Operator", where 911 is not available at no charge to the calling party.
  2. Must be able to access 911 Emergency Service, where available, at no charge to the calling party.
  3. Must be able to access 411 Directory Assistance at no charge to the calling party.
  4. The appropriate emergency number (Operator, 911) must be clearly posted at each location of a customer-provided telephone.

**A7. COIN TELEPHONE SERVICE<sup>1</sup>****A7.6 Public Set Use Fee (Cont'd)****A7.6.1 Definition and Requirements (Cont'd)**

- A. A fee of \$0.25 will be billed to and collected from end users by the Company on behalf of the Company and subscribers of the Public Telephone Access Service tariff. The fee applies to 0- and 0+ intraLATA long distance and local Company processed completed messages rated on or after the effective date of this tariff which originate from Company and non-Company public telephones. This fee is optional for 0- and 0+ interLATA calls based on negotiated arrangements between the carrier and the pay phone provider.
- B. Billing and collection of Company processed completed messages which originate from non-Company public telephones, and to which the Set Use Fee applies, will be provided under the following conditions:
1. The Company will bill and collect the Set Use Fee on behalf of Public Telephone Access Service Providers in addition to the local, long distance and operator service charges retained by the Company specified in A7.4.5.
  2. The Company will render a credit amount to the Public Telephone Access Service subscriber which will equal the billed Set Use Fees minus an amount to cover all adjustments, bad debts and unbillables which are uncollectable. The factor used to adjust the subscriber's credit amount for adjustments, bad debts and unbillables which are uncollectable will be based on our experience of similar or related services.
  3. Service may be denied to the billed party due to nonpayment of the Set Use Fee subject to the rules and regulations specified in A2.4.
  4. The procedures utilized for the application and remittance of federal, state and local sales, use, excise or other taxes or tax-like fees to be imposed on a subscriber to Public Telephone Access Service applicable to its end user shall be those used by the Company in imposing such taxes on charges to the Company's end users. It shall be the responsibility of the subscriber to remit any gross receipts tax due with respect to the Set Use Fees. Should any federal, state, or local jurisdiction determine that sales, use, excise, gross receipts or any other taxes (including interest, penalties and surcharges thereon) are due by the subscriber as a result of the Company's billing of the Set Use Fee for the subscriber, the Company will advise the subscriber and the subscriber shall be liable for any such tax, interest, penalties and surcharges, and the subscriber shall immediately reimburse the Company the amount of such tax, interest, penalties and surcharges paid by the Company.
  5. The Company shall not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on Company facilities and equipment nor on equipment owned by the subscriber.
  6. In the event that the billing data is lost, the Company will estimate the volume of lost messages and associated set use fees based on prior billing periods. In such events, the extent of the Company's liability for damages shall be limited to the granting of a corresponding credit adjustment to the amounts due to the Pay Telephone Service Provider to account for the unbillable revenue.
  7. The Company must be notified in writing of any disputes within 30 days from the date the details were initially made available to the Pay Telephone Service Provider.
  8. In the absence of willful misconduct, no liability for damages to the Pay Telephone Service Provider, or other entity or other person other than that as set forth in 6. preceding shall be attached to the Company for its action or the conduct of its employees in providing the billing and collection of the Public Set Use Fee.

**A7.8.1 General**

- A. SmartLine<sup>®</sup> Service is a standard Dial Tone First (DTF) coin line for customer provided pay telephones.
- B. SmartLine<sup>®</sup> Service will be provided from central offices where facilities are available.
- C. This service is provided subject to the requirements set forth in A7.4.1, A7.4.2, A7.4.3. and Section A2. of this Tariff.
- D. Features of the SmartLine<sup>®</sup> Service are as follows:
  1. Service will be provided on a two way basis, except lines placed in correctional institutions, schools, hospitals and other locations for which a specific exemption has been granted by the Public Service Commission. There will be no charge imposed for incoming calls.
  2. Service will be provided on a DTF basis to enable end users to dial certain calls without requiring coin deposits, e.g. 911 Emergency Calls, local directory assistance, and non-sent paid calls.
  3. Central office blocking of 900, 976 and N11 calls will be provided.
  4. Operator Call Screening will be provided to alert operator and carrier systems that the call is originating from a SmartLine<sup>®</sup> Service line and may require special handling and billing treatment.
  5. Billed Number Screening will be provided to indicate in validation data bases that incoming collect and bill to third number calls are not to be billed to the line.
  6. Coin signaling (coin collect and coin return) will be provided by the network. Coin collect is used when a call has been completed and coin return is used if a no answer or busy condition is encountered.
  7. Standard recorded announcements currently used with the Company's Public Telephone service will be utilized with SmartLine<sup>®</sup> Service.
  8. The Company's operator system will handle 0- intraLATA toll calls and 0+ local calls from SmartLine<sup>®</sup> Service lines. All 10XXX 0+ or 101XXXX 0+ dialed intraLATA toll calls will be routed to the dialed carrier.
