A7. COIN TELEPHONE SERVICE¹

A7.8 SmartLine[®] Service for Public Telephone Access (Cont'd)

A7.8.1 General (Cont'd)

D. Features of the SmartLine[®] Service are as follows: (Cont'd)

9. At present, sent paid interLATA, interstate and international calls originating from SmartLine[®] Service lines, including but not limited to 1+, 10XXX 1+, 101XXXX 1+, 011+, 10XXX 011+, 101XXXX 011+, 950 1+ and 800 1+ access code calls, will be forwarded to AT&T for coin rating and completion. When other interexchange carriers provide sent paid service, 1+ presubscription interLATA calls will be permitted. Special billing/coin sharing arrangements between the SmartLine[®] Service subscriber and their respective carriers will be the responsibility of the SmartLine[®] Service subscriber.

Sent paid intraLATA calls originating from SmartLine[®] service lines including but not limited to 1+, 10XXX 1+ and 101XXXX 1+ access code calls will be sent to the presubscribed IC unless the IC is unable to handle coin rating. If the IC is unable to handle coin rating, the call will be sent to the Company for coin rating and completion.
10. International Call Blocking (011+) is available through the BellSouth Telecommunications, Inc., Tariff F.C.C. No. 1.
11. All 0+ interLATA and intraLATA calls will be routed to the SmartLine[®] Service subscriber presubscribed carrier.
12. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment. The limit of the Company's liability for end user fraud of whatever nature occurring at or in association with the subscriber's equipment shall be governed by provisions of this Tariff and rule or regulation of the Florida Public Service Commission (PSC). In the case of a conflict between the Company's Tariff and a rule or regulation of the Florida PSC, the rule or regulation shall prevail.

A7.8.2 Rates and Charges

A. SmartLine[®] Service will be provided on a usage rate basis where facilities are available.

1. Usage Rate Service - The following monthly rate is applicable to SmartLine[®] Service on a per line basis.

	Monthly	
	Rate	USOC
(a) Two way, per line	\$35.00	SLU
(b) Outward only, per line	35.00	SLN

- B. The following measured rate charges apply to calls within the local calling area and to the calls in the Local Calling Plus exchanges specified in A3.8.50 and to calls in the Extended Calling Service exchanges specified in A3.8.49 other than those specified in C. following.²**

Note 1: Text is shown as new due to reissue of all Tariff Sections. No changes in rates or regulations were made with this filing.

Note 2: Calls within the local calling area and calls in the Local Calling Plus exchanges specified in A3.8.50 are each charged for at least one (1) minute of use. For calls that exceed one (1) minute, usage charges are based on conversation time rounded up to the nearest one tenth (1/10) minute.

A7. COIN TELEPHONE SERVICE¹**A7.8 SmartLine[®] Service for Public Telephone Access (Cont'd)****A7.8.2 Rates and Charges (Cont'd)**

- I. Non-sent paid intraLATA toll calls carried by the Company will be rated to the end user at the long distance rate and the appropriate operator surcharge set forth in Section A18. of this Tariff plus the set use fee as provided in A7.6 of this Tariff.
- J. Touch-Tone Calling Service will be provided at rates specified in A13.2 of this Tariff for business individual line service.
- K. The SmartLine[®] Service subscriber will be charged for intraLATA long distance Directory Assistance Service at the rate specified in A18.7 of this Tariff for business individual line service. The network will require a deposit be made by the end user unless charged to an alternate billing method.
- L. Service charges as covered in Section A4. of this Tariff for business individual line service are applicable.
- M. Listings in connection with SmartLine[®] Service are furnished under the regulations specified in Section A6. of this Tariff for Company and Customer Owned Pay Telephone Service.
- N. Suspension of service, as covered in A2.3, is not available unless the instrument is totally inaccessible to the general public on a temporary basis. In all cases, the decision to permit temporary suspension of service rests with the Company.
- O. When service is temporarily suspended at the subscriber's request, a Secondary Service Ordering Charge and a restoration charge, as specified in A4.3 will be charged for each telephone number restored.
- P. Rates for Verification and Emergency Interrupt Service as provided in Sections A3. and A18. of this Tariff are applicable. The network will require a deposit be made by the end user unless charged to an alternate billing method.

A7.9 Local Usage Detail (LUD)**A7.9.1 General**

- A. Local Usage Detail (LUD) is an option for Public Telephone Access Service for CPE and SmartLine[®] service for Public Telephone Access subscribers who desire a printed listing of local call details for calls placed to the basic local calling area and to the expanded calling area, if applicable, in addition to the usual summary billing of all dialed, sent-paid, billed local usage.
- B. The provision of LUD will coincide with the billing period(s) for the access lines to receive detailed billing; i.e., the reporting of expanded call details will start at the beginning of a billing period and stop at the end of a billing period. For existing customers, LUD should be ordered at least five days prior to the billing date to ensure the timely start or stop of detailed reporting. However, if LUD is requested on an order which establishes service, detailed reporting will start coincident with establishment of the service.
- C. LUD will be provided on a per account basis.
- D. Charges for LUD are in addition to applicable local usage charges specified in this Tariff.

A7.9.2 Rates and Charges

- A. The following charge applies for LUD.

Note 1: Text is shown as new due to reissue of all Tariff Sections. No changes in rates or regulations were made with this filing.

- B. When an order is issued solely to initiate LUD, a Secondary Service Order charge applies. Otherwise, normal service order charges apply.

A7.10 Coin Refund and Repair Referral Service (CRS)

A7.10.1 General

- A. Coin Refund and Repair Referral Service (CRS) provides handling of refund requests and repair referrals generated by the end users of Independent Payphone Provider (IPP) public telephones. End users may request refunds for coins lost during an attempt to place local, intraLATA or interLATA calls and/or submit repair/trouble reports for the IPP public telephone to the Company's operator services.
- B. CRS is available to any IPP outside confinement facilities in the Company's territory subscribing to either SmartLine^{*} service or Public Telephone Access Service for Customer Provided Equipment (CPE) which also subscribes to Operator Screening. CRS will not be provided for pay telephones located in confinement facilities.

A7.10.2 Regulations

- A. All access lines subscribed to CRS must be subscribed to the same option.
- B. The IPP public telephone must include detailed instructions on how to obtain refund and repair referral assistance.
- C. The Coin Refund portion of the service will be provided on one of the following options:
- Option 1 - The Company operator will take the refund request from the end user and forward the information to the IPP for processing.
 - Option 2 - The Company operator will take the refund request from the end user. If the request is for a credit to the end user's account with the Company, the operator will issue the credit. Any other refund request will be forwarded to the IPP for processing.
 - Option 3 - The Company operator will take the refund requests from the end user and issue a credit or draft as requested by the end user.
- D. Repair referral service will be offered with any of the coin refund options or on a stand alone basis. The Company operator will take the repair report from the end user and refer to the IPP for handling.
- E. In the case of system outages or lost data, the Company shall have no liability and shall not be responsible for providing refunds or repair referrals to the end user.

- This equipment will be provided by the Company for use with new or existing service only so long as such equipment is available from Company inventory.
- The Company will continue to provide maintenance for Company provided customer premises equipment only until December 31, 1987, or such earlier date as may be necessary and appropriate to comply with applicable state or federal laws, rules, or regulations.

A107.1.2 Definition and Requirements

(Obsoleted 06-15-96, Type 2. Not offered for installation on and after June 15, 1996.)

- A.** Semipublic telephone service is that class of individual line main station exchange service furnished in locations which in the judgment of the Company are reasonably accessible to the public. It is not intended as a substitute for other service or as a means of providing an alternative service at a lower charge. Semipublic telephones are furnished if the nature and amount of usage indicate that it is suited to meet requirements at the following types of locations, and at the option of the Company:

- Where there is an appreciable demand for service on the part of transients but where in the opinion of the Company, the installation of a public telephone is not warranted.
- Where there is a collective use of the service by a relatively stable body of guests, members of clubs or transients.
- Where the demand for service is for a combination of customer and transient usage.

A107. OBSOLETE SERVICE OFFERINGS - COIN TELEPHONE SERVICE¹**A107.1 Semipublic Telephone Service (Cont'd)****A107.1.7 Extended Network Interface (Cont'd)****B. Regulations**

1. The Extended Network Interface is provided by the Company for use with voice grade service only. The Company is not responsible or liable for defects or other problems associated with other type transmissions such as any data or alarm transmissions. A maximum of one Extended Network Interface per line is permitted. The Company will guarantee operation of the Extended Network Interface with no more than one (1) customer provided extension set and one (1) customer provided auxiliary ringer, and subject to the following installation constraints:
 - a. The Extended Network Interface wiring should not be located, exposed or accessible within ten (10) linear feet of the coin set.
 - b. The Company will provide a maximum of thirty-five (35) linear feet of wire to the Extended Network Interface.
 - c. The Company will provide a minimum loop current at the Extended Network Interface in accordance with FCC registration requirements.
 - d. Accessibility of installation by Company personnel and in accordance with installation procedures.
2. The Extended Network Interface must be requested by the customer and provided by the Company prior to connection of any customer premises equipment.
3. Customer premises equipment must be connected to the network via the Extended Network Interface through a standard plug or adapter in accordance with Part 68 of the FCC Rules and Regulations.
4. The Company is not liable for damages resulting from discontinuance of service to customer premises equipment resulting from storms, power outages, or other natural occurrences.
5. The customer is liable for damages to the Extended Network Interface or associated Company provided equipment which, in the opinion of the Company, were caused by tampering with said equipment or as a result of negligence.
6. The Company has the right to terminate service provided by the Extended Network Interface to prevent harm to the network or to prevent fraud.
7. The Company is not liable for transmission difficulties caused by customer owned equipment defects or improper use of the Extended Network Interface.
8. The Company is not liable for damages or harm arising from the customer's use of the Extended Network Interface unless such accident or injury is due to gross negligence of the Company.
9. The customer shall be responsible for payment of a nonrecurring charge as specified in Section A15 of this Tariff for each visit by the Company to the customer's premises solely to determine that the service difficulty or trouble report results from the use of equipment or facilities provided by the customer.

Note 1: Text is shown as new due to reissue of all Tariff Sections. No changes in rates or regulations were made with this Filing.

A7. COIN TELEPHONE SERVICE

A7.1 Public Telephone Service

A7.1.1 Definition and Purpose of Public Telephones

A public telephone is an exchange station installed at the Company's initiative or at its option, at a location chosen or accepted by the Company as suitable and necessary for furnishing service to the general public. Public telephones are installed for the use of the general public and their use by any occupants of the premises in which they are located is only incidental to their principal purpose.

A7.1.2 Public Telephone Locations and Requirements

- A. The Company recognizes its responsibility for providing adequate telephone facilities to meet all reasonable public requirements, and the decision as to the extent, character and location of the public telephone facilities rests with the Company.
- B. In the selection of premises the Company endeavors to secure the most suitable of those available for the purpose, public convenience considered. The character of the premises or the location of the equipment should not be such as to offer risk to the Company's equipment or receipts.
- C. For customers subscribing to Caller ID - Deluxe, as specified in A13.19.2.H of this Tariff, if the incoming call originates from a Company public telephone, the name information transmitted will always be "Pay Phone."

A7.1.3 Equipment

- A. Public telephones are ordinarily equipped with coin collecting devices; however, at the option of the Company, coinless public telephones may be furnished for the placing of collect, Calling Card and third-number billed calls.
- B. Booths are furnished when in the judgment of the Company they are warranted by the estimated amount of traffic, or by the character of the location, as in lobbies, waiting rooms, etc.
- C. Extension stations are not furnished in connection with public telephone service.
- D. In all cases, the Company furnishes and displays such of its standard signs as are necessary to properly identify the station.
- E. The equipment specified in A7.2.5 following is considered customer premises equipment under the FCC's decision in CI II (Docket 20B28) but has been assigned to the Company under the Modification of Final Judgement (MFJ). Its provision will be subject to the following restrictions:
 - 1. This equipment will be provided by the Company for use with new or existing service only so long as such equipment is available from Company inventory.
 - 2. The Company will continue to provide maintenance for this Company-provided equipment subject to the availability of parts and/or equipment.
- F. Public Telephone Service may be arranged to provide Public Facsimile Service and/or to allow personal computer access capability in connection with appropriately installed network interface facilities. (N)
- G. At the request of the location provider and at the Company's option Public Telephone Service may be arranged at certain locations, such as airports and shopping centers, to allow local calls to be forwarded to on premise security or information telephone numbers via customized speed dial capability at no charge to the caller. Such calls will be charged to the location provider at the local message rate specified in A7.1.4 of this Tariff. (N)

A7.1.4 Message Charges

- A. Local messages from public telephones are charged for at 25 cents per message where equipped for Dial Tone First.
 - 1. Local message

	Rate	USOC
(a) Each	\$.25	NA

- B. Local messages from Non-Dial Tone First equipped public telephones will be charged for at 10 cents per message until such time as the public telephone is equipped for Dial Tone First (USOC 1PC).

A7.1.4 Message Charges (Cont'd)

- C. Long distance messages will be charged for at the Company's established long distance telephone rates as found in Section A18. of this Tariff.
- D. Long distance message telecommunications rates as specified in Section A18. of this Tariff will apply to intracounty sent-paid calls terminated outside the local calling area exchanges listed in A3.6.1 for the exchange where the call originated.
- E. Calls placed to participating N11 subscribers from exchanges within the Atlanta local calling area will be charged for at the Company's local message rate as specified in A. preceding of this Tariff.

A7.1.5 Reserved for Future Use

A7.1.6 Reserved for Future Use

A7.1.7 Institutional Telecommunications Service/Inmate Calling Service (ICS)

A. General

- 1. Inmate Calling Service (ICS), or Institutional Telecommunications Services, applies to those telecommunications services at an institution for use by inmates in making collect only calls. An institution is defined as any type of confinement/correctional facility (i.e., prisons, jails, work farms, detention centers, etc.). ICS does not apply to telephones located elsewhere within the facility (i.e., administrative areas, guards' break rooms/lounges, etc.) or outside the facility.

B. Requirements

- 1. Subject to other applicable provisions of this Tariff, the following provisions also apply to ICS lines:
 - a. ICS lines will provide for access to outward only 0+ collect calls for local, intraLATA toll, and interLATA toll calls, and will block access to all other calls.
 - b. Where call termination is deemed appropriate by the administrator¹ of the institution and unless another time interval is specifically requested by the administrator, ICS call duration will be limited to a 15 minute interval. Any changes to call termination will be filed with the Commission within thirty (30) days of such change. The Company will not provide credit or equivalent service to the called or calling parties for such calls.
 - c. ICS lines will block calls to local Directory Assistance (411), long distance Directory Assistance (555-1212), toll free numbers (1-800), 700, 900, 950, 976, 10XXX, 101XXXX, N11 Service numbers and any other numbers the institution and/or the Commission determines may jeopardize the integrity and security of the institution and the safety to the public.
 - d. At the request of the administrator, the Company may provide call detail information, such as date and time of call, duration of calls, and called and calling telephone numbers, to the facility where the institution administrator stipulates such information appropriate in preventing or identifying abuse or unlawful use of service and where the institution administrator stipulates that the provision of such information is not in violation of any federal, state or local laws, regulations or orders.

Note 1: The ICS "administrator" is the executive officer or person designated by the executive officer of the institution.

A7. COIN TELEPHONE SERVICE**A7.1 Public Telephone Service (Cont'd)****A7.1.7 Institutional Telecommunications Service/Inmate Calling Service (ICS) (Cont'd)****B. Requirements (Cont'd)****1. (Cont'd)**

- e. The Company will conspicuously display near ICS telephones, notification to inmates that the institution may monitor, time and restrict service from such telephones and that information, such as date and time of call, duration of call, and originating and terminating telephone number, may be furnished to the institution, and further, that the use of these telephones constitutes consent to this service.
 - f. At the request of the institution administrator, the Company may provide inmates the capability to make local calls to public defender telephone numbers or customer provided commissary service telephone numbers at no charge. Such calls will be charged to the institution at the local message charges as specified in A7.1.4 of this Tariff.
2. For calls originating from institutions, Company operators will clearly state the name of the Company at the initiation of any encounter with a customer (the billed/called party) so that he is fully informed as to which carrier will be handling the call before the customer incurs any charge. Company operators will also clearly state the Company's name at the conclusion of its contact with the customer.
 3. If requested by the customer, Company operators will fully disclose the rate to be charged for a call, including surcharges, before the customer incurs any charge.
 4. Within the confines of the institution the Company may serve up to three (3) instruments per ICS access line installed. However, if more than one instrument occupies a single ICS line, only one instrument may use the line at a given time.
 5. Where facilities permit, ICS may be arranged to detect Three-Way Calling. At the request of the facility administrator, when Three-Way Calling is detected, the call may be disconnected. No credit will be given if such a call is disconnected.
