Washington, D.C. 20554

Re: CC Docket-96-195

Dear Mr. Caton:

In the matter of Western Reserve Telephone Company, relative to a request to institute one-way Extended Local Calling Service from the Aurora, Northfield and Twinsburg Exchange of the Western Reserve Telephone company, to the Akron Exchange of the Ohio Bell Ameritech Telephone Company.

Sagamore Hills Township petitions the FCC to review our case based on the following:

- 1 The ability to interact with Summit County Council and various county agencies servicing our geographic area.
- 2 To communicate with Akron University without the hindrance of a long distance charge.
- 3 Promote businesses to locate in our community and not burden said businesses with the expense of long distance phone calls to their profit margin.
- 4 To enable residents to use the medical services of greater Akron without the burden of paying long distance charges There are no hospitals in the 467-468 exchange.

In closing, Alltel Telephone Company worked with 14 communities located in northern Summit County in our request for one-way Extended Local Calling Service. On March 23, 1995, the Public Utilities Commission of Ohio ordered that "the joint application seeking one way, non-optional Extended Local Calling Service from Aurora, Northfield and Twinsburg exchanges be granted." We are requesting the Federal Communications Commission consider the history of our case and give its approval for this Alternative Regulation Plan.
