Attn: Behrooz Nourain

Dear Mr. Nourain:

The Wireless Telecommunications Bureau, pursuant to Rule 1.113, is setting aside its action of May 2, 1995, which granted Liberty Cable Co., Inc. authority to operate four 18 GHz stations under call signs WNIW782, WNIM212, WNTY584, and WNTY605. The grant of your applications (FCC file numbers: 712203 and 711937 are on the petition to deny dated April 17, 1995 and FCC file numbers: 712218 and 712219 are on the petition to deny dated April 10, 1995) are set aside because of comments filed by Time Warner Cable of New York City and Paragon Cable Manhattan (collectively, "Time Warner").

Rule 1.962 (f) states that no applications subject to public notice constraints, as originally filed or substantially amended, will be granted by the Commission prior to the 31st day following the issuance of the public notice of the acceptance for filing of such application. The application for WNIM212 appeared on Public Notice 1787 dated March 17, 1995 and the other applications appeared on Public Notice 1789 dated March 31, 1995.

The granting of your applications were premature in that they were grant prior to proper consideration of the filing of timely opposition. In accordance with Rule 1.962, the grant of these applications were in error and are therefore set aside. Your applications have been returned to pending status and final action will await resolution of the petition.
