Re: **Liberty Cable Co., Inc.;**
Amendment of Request for
Special Temporary Authority
FCC File No. 713295, FCC Call Sign WNTX889
2600 Netherland, Riverside, NY (Century)

Dear Mr. Hayden:

Submitted herewith, on behalf of Liberty Cable Co., Inc. ("Liberty"), is an amendment to Liberty's request for Special Temporary Authority ("STA"), filed on May 19, 1995.

By this request, Liberty seeks to include the latest amendment to its application for regular authority filed on May 23, 1995. That application proposes the addition of one path to Liberty's modification application referenced above.

Kindly refer any questions regarding this matter to the undersigned.

Sincerely,

Michael J. Lehmkuhl
Attorney for
Liberty Cable Co., Inc.

**Re: Liberty Cable Co., Inc.
Request for Special Temporary Authority
2600 Netherland Avenue (Century)
FCC File No. 713295, Call Sign WNTX889**

Dear Sir or Madam:

Transmitted herewith, on behalf of Liberty Cable Co., Inc. ("Liberty") is an original and one (1) copy of a request for special temporary authority ("STA") for the above-referenced facility.

Enclosed is a check made out to the Federal Communications Commission in the amount of \$45.00 to cover the necessary filing fees.

Questions with respect to this matter should be referred to the undersigned.

Sincerely,

Michael J. Lehmkuhl
Attorney for
Liberty Cable Co., Inc.

Enclosures

cc: Mr. Michael Hayden (via Federal Express)

Special Temporary Authority
FCC File No. 713295
OFS Station WNTX889

Liberty Cable Co., Inc. ("Liberty") respectfully requests special temporary authority ("STA") pursuant to Section 94.43 of the Commission's Rules to operate an 18 Ghz operational-fixed microwave service ("OFS") station at 2600 Netherland Avenue (Century) Riverside, NY. Given the extraordinary circumstances regarding the need for service, any delay in the institution of temporary operation would seriously prejudice the public interest.

Pursuant to Section 94.43(c) of the Commission's Rules, the following is submitted:

1. Name, Address and Citizenship of Applicant

Liberty Cable Co., Inc.
215 E. 95th Street
New York, NY 10128
ATTN: Behrooz Nourain

New York Corporation

2. Need for Special Action

On March 24, 1995, (File No. 713295), Liberty filed the above-referenced application to modify its 18 GHz station at Century proposing to add a microwave path to Liberty's system. The 30 day public notice period expired for the application on May 15, 1995 and no petitions were filed. The application is now ripe for grant and any delay would severely hamper Liberty's ability to compete in the New York City market.

The purpose of the Commission's action granting private cable operators access to the 18 GHz band was to increase competition in the multichannel video delivery marketplace. See, Operational Fixed Microwave Service (Video Distribution System), 6 FCC Rcd. 1270 (1991) ("the 18 GHz Order"). In order to compete effectively with the established cable companies, Liberty must be able to convert buildings to its own cable service in rapid fashion, ordinarily within a thirty day time period, and/or otherwise be able to adapt to the needs of its customers. If Liberty cannot meet its customers' demands, its customers may -- and likely will -- terminate their contracts with Liberty and instead receive their cable service from the franchised competition. This will damage Liberty's business and reputation immeasurably, as well as thwart the Commission's goal of increasing competition in the multichannel video delivery marketplace. Accordingly, Liberty submits that the institution of special temporary authority requested herein is in the public interest.

3-4. Type and Purpose of Operation

Fixed transmission of video and audio signals for distribution of applicant's own products or services, including video entertainment programming, to private cable buildings on frequencies in the 18,142-18,580 MHz band.

5. Time and Date of Operation Desired

Liberty requests authority for twenty-four (24) hour operation pending action on the application for license and requests that such authority begin on the tenth day following the filing of this request for special temporary authority.

6-12. Technical Information

Liberty will operate the station in conformance with the technical specifications outlined in the referenced application(s).

Liberty certifies that no party to the application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, codified at 21 U.S.C. Section 862.

Please address all correspondence regarding this matter to Liberty's counsel, Michael J. Lehmkuhl, Esq., Pepper & Corazzini, L.L.P., 1776 K Street, N.W., Suite 200, Washington, D.C. 20006 as well as the undersigned.

Respectfully submitted,

Behrooz Nourain
Director of Engineering

**Re: Liberty Cable Co., Inc.
Request for Special Temporary Authority
2600 Netherland Avenue (Century)
FCC File No. 713295, Call Sign WNTX889**

Dear Sir or Madam:

Transmitted herewith, on behalf of Liberty Cable Co., Inc. ("Liberty") is an original and one (1) copy of a request for special temporary authority ("STA") for the above-referenced facility.

Enclosed is a check made out to the Federal Communications Commission in the amount of \$45.00 to cover the necessary filing fees.

Questions with respect to this matter should be referred to the undersigned.

Sincerely,

Michael J. Lehmkuhl
Attorney for
Liberty Cable Co., Inc.

Enclosures

cc: Mr. Michael Hayden (via Federal Express)

**Special Temporary Authority
FCC File No. 713295
OFS Station WNTX889**

Liberty Cable Co., Inc. ("Liberty") respectfully requests special temporary authority ("STA") pursuant to Section 94.43 of the Commission's Rules to operate an 18 Ghz operational-fixed microwave service ("OFS") station at 2600 Netherland Avenue (Century) Riverside, NY. Given the extraordinary circumstances regarding the need for service, any delay in the institution of temporary operation would seriously prejudice the public interest.

Pursuant to Section 94.43(c) of the Commission's Rules, the following is submitted:

1. Name, Address and Citizenship of Applicant

Liberty Cable Co., Inc.
215 E. 95th Street
New York, NY 10128
ATTN: Behrooz Nourain

New York Corporation

2. Need for Special Action

On March 24, 1995, (File No. 713295), Liberty filed the above-referenced application to modify its 18 GHz station at Century proposing to add a microwave path to Liberty's system. The 30 day public notice period expired for the application on May 15, 1995 and no petitions were filed. The application is now ripe for grant and any delay would severely hamper Liberty's ability to compete in the New York City market.

The purpose of the Commission's action granting private cable operators access to the 18 GHz band was to increase competition in the multichannel video delivery marketplace. See, Operational Fixed Microwave Service (Video Distribution System), 6 FCC Rcd. 1270 (1991) ("the 18 GHz Order"). In order to compete effectively with the established cable companies, Liberty must be able to convert buildings to its own cable service in rapid fashion, ordinarily within a thirty day time period, and/or otherwise be able to adapt to the needs of its customers. If Liberty cannot meet its customers' demands, its customers may -- and likely will -- terminate their contracts with Liberty and instead receive their cable service from the franchised competition. This will damage Liberty's business and reputation immeasurably, as well as thwart the Commission's goal of increasing competition in the multichannel video delivery marketplace. Accordingly, Liberty submits that the institution of special temporary authority requested herein is in the public interest.

3-4. Type and Purpose of Operation

Fixed transmission of video and audio signals for distribution of applicant's own products or services, including video entertainment programming, to private cable buildings on frequencies in the 18,142-18,580 MHz band.

5. Time and Date of Operation Desired

Liberty requests authority for twenty-four (24) hour operation pending action on the application for license and requests that such authority begin on the tenth day following the filing of this request for special temporary authority.

6-12. Technical Information

Liberty will operate the station in conformance with the technical specifications outlined in the referenced application(s).

Liberty certifies that no party to the application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, codified at 21 U.S.C. Section 862.

Please address all correspondence regarding this matter to Liberty's counsel, Michael J. Lehmkuhl, Esq., Pepper & Corazzini, L.L.P., 1776 K Street, N.W., Suite 200, Washington, D.C. 20006 as well as the undersigned.

Respectfully submitted,

Behrooz Nourain
Director of Engineering

ATTACHMENT - Explanation of Numbers Shown on Stamp

Please note the following with respect to your recent request.

6. Associate this authorization with all appropriate station records. A new license will not be issued.

7. This authority is conditioned on our receipt, within 10 days, of a copy of the STA request bearing the original signature of the applicant.

8. This authority is conditioned on our receipt, within 10 days, of proper payment in the amount of \$_____. This required fee and FCC Form 159 must be sent to the address identified in the fee guide for the appropriate radio service.

10. Subject to ET Docket 92-9 which includes operation on a secondary, non-interference basis.

11. The antenna(s) may be no more than twenty (20) feet above the ground or manmade structure other than a tower or pole, or must be mounted on a structure that complies with an existing and approved Federal Aviation Administration Final Determination.

12. This facility may not cause interference to any authorized Mexican communication system and authority to operate is granted on a secondary, non-interference basis only. As a condition of grant, you are required to notify the Engineer in Charge or the appropriate Commission Field office when this station is initially placed in service, and at subsequent times when any operating parameter affecting its interference potential is changed.

13. Operation under this Special Temporary Authority may not cause interference to any authorized Canadian communication system and authority to operate is on a secondary, non-interference basis only.

99. OTHER: This authority is subject to final resolution of Time Warner's petitions to deny the underlying applications and any other appropriate action the Commission may take against Liberty in the future. This STA may be terminated by the Commission at will and without a hearing. All STAs are conditioned on Liberty's future compliance with all applicable Commission rules.

BY: *Michael G. Karch*
CHIEF, MICROWAVE BRANCH

Special Temporary Authority
FCC File No. 713295
FCC Call Sign WNTX889

Liberty Cable Co., Inc. ("Liberty") respectfully requests special temporary authority ("STA") pursuant to Section 94.43 of the Commission's Rules to operate an 18 Ghz operational-fixed microwave service ("OFS") station at 2600 Netherland Ave, Riverdale, NYC (Century) in the manner described below. Given the extraordinary circumstances regarding the need for service, any delay in the institution of temporary operation would seriously prejudice the public interest.

Pursuant to Section 94.43(c) of the Commission's Rules, the following is submitted:

1. Name, Address and Citizenship of Applicant

Liberty Cable Co., Inc.
215 E. 95th Street
New York, NY 10128
ATTN: Behrooz Nourain

New York Corporation

2. Need for Special Action

Liberty is an alternative multichannel video programming distributor serving approximately 30,000 subscribers who live mainly in buildings in the New York metropolitan area. In the vast majority of cases, Liberty provides service pursuant to the Commission's action in Operational Fixed Microwave Service (Video Distribution System), 6 FCC Rcd. 1270 (1991) ("the 18 GHz Order") through microwave channels in the 18,142 - 18,580 band ("the 18 GHz band").

From March 24, 1995 through June 22, 1995, Liberty applied to add new paths to its existing 18 GHz station, WNTX889. These applications remain pending under FCC File No. 713295 and requests for STA for these five paths have remained pending (see, Attachment 1).

On July 17, 1995 Liberty amended its application to add a path to 2500 Johnson. This path was contracted for, by Liberty, on April 28, 1995. According to the terms of the installation contract, Liberty must deliver service within 120 days-- July 27, 1995-- or face cancellation of its service. The date is fast

and Liberty has no assurances that it will be able to provide service by the July 27 deadline. A series of occurrences where Liberty fails to deliver its service in accordance with contractual requirements or where potential customers cancel their subscriptions to Liberty's service will immeasurably damage Liberty's business and reputation.

When the 18 GHz Order granted private cable operators access to the 18 GHz band, the Commission voiced its conviction that the public interest was well served by allowing competition in the video services marketplace through wireless cable operators. The Commission said:

After carefully reviewing the record, we conclude that adoption of this proposal, . . . , will promote the public interest by encouraging competition in the video distribution marketplace. The need for such action is well documented. This Commission recently conducted a review of marketplace developments in the video distribution industry in which we concluded that cable systems possess a disproportionate share of market power and, therefore, are capable of engaging in anti-competitive conduct. In these circumstances, competition provides the most effective safeguard against the specter of market power abuse. As competition from alternative multichannel providers such as second competitive cable operators, wireless cable multi-pinpoint distribution services, SMATV systems, and direct broadcast satellite ("DBS") emerges, we find that it would serve the public interest to enhance their competitive potential. 6 FCC Rcd. at 1271, para. 9.

The Commission also said:

In conclusion, cable systems increasingly dominate the multichannel video delivery services, resulting in criticism of the industry and complaints of anti-competitive conduct. Although rival multichannel providers are emerging in the marketplace, we recognize the need for action designed to encourage these operators to enter the marketplace and to increase their market viability. To improve the competitive potential of alternative multi-channel providers eligible to hold licenses in the Operation-Fixed Microwave Service, we take action in this proceeding permitting the use of the 6 MHz wide, point-to-point channels in the 18 GHz band for the distribution of video entertainment material. 6 FCC Rcd. at 1272, para. 16.

Furthermore, in its 1994 report to Congress on the status of competition in this marketplace, the Commission makes clear that little has changed in the way of competition; cable is still king. In sum, the public interest is well served by the promotion of competition by wireless cable operators in the video services marketplace.

The Commission action in opening the 18 GHz band to wireless cable operators has achieved its goal in that it has stimulated competition to incumbent cable monopolists. Liberty is competing head-to-head with Time Warner in Manhattan using this 18 GHz band. To compete effectively with Time Warner, Liberty must be allowed to continue its service to subscribers in those buildings which have elected to switch from Time Warner to Liberty. While this in no way justifies the premature activation of additional microwave paths in this instance, if Liberty cannot meet its customers' demand for service, those potential customers will cancel their contracts with Liberty and remain with Time Warner. The effect will also immeasurably damage Liberty's business and reputation.

3. Type of Operation

Fixed transmission of video and audio signals in the 18 GHz band.

4. Purpose of Operation

The equipment will be used to distribute applicant's own products or services, including video entertainment programming, to private cable buildings on frequencies in the 18,142 - 18,580 MHz band.

5. Time & Date of Operation

Liberty requests authority for twenty-four (24) hour operation pending action on the application for license and requests that such authority begin on the tenth day following the filing of this request for special temporary authority.
