

We would appreciate your support of our federal application, as well as our filings with the OCC. However, if you intend to file at the FCC because you disagree with Southwestern Bell's position, and you believe that a meeting might help to narrow the issues in dispute, please contact me at (314) 331-9700, to discuss your concerns and, if necessary, arrange such a meeting. Southwestern Bell is required to submit a statement of its efforts to narrow any disputed issues within five days of submitting its application with the FCC, so your cooperation and prompt response to this letter would be appreciated.

A copy of the FCC Notice containing the specific application procedures and comment requirements is attached for your information. Please feel free to give me a call at (314) 331-9700 with any questions.

Sincerely,

Marvin A. Thomason

April , 1997

Mr. Stephen Schilling
Sr. VP Business Development & Operations
GE Capital ResCom
5757 West Century Boulevard
Suite 400
Los Angeles, California 90045

Dear Mr. Shilling:

We are pleased that several facilities based local service providers (LSPs) and resellers have reached agreement or are negotiating comprehensive interconnection agreements with Southwestern Bell Telephone Company (SWBT) in Oklahoma. Implementation of these agreements will extend the benefits of the Telecommunications Act of 1996 (the "Act") to your customers and continue the expansion of competitive local telecommunications alternatives to business and residential customers in the state.

As you may be aware, on March 17, 1997 SWBT's Oklahoma Statement of Generally Available Terms and Conditions Under Sections 251 and 252 of the Telecommunications Act of 1996 (the "STC") went into effect. Based on its effective STC and approved interconnection agreements, SWBT and its affiliates, SBC Communications Inc. and Southwestern Bell Long Distance (collectively "Southwestern Bell"), anticipate filing an application in the near future with the FCC requesting authority for Southwestern Bell Long Distance to provide interLATA service originating in Oklahoma.

A draft copy of Southwestern Bell's proposed FCC application, demonstrating its compliance with the requirements of the Act for authorization to provide in-region interLATA service originating in Oklahoma, was filed with the OCC on February 20, 1997. Additionally, Southwestern Bell filed Comments in Support of Endorsement of Full InterLATA Competition in Oklahoma on March 11, 1997, and Reply Comments on March 25. After review of the evidence and arguments submitted in connection with the above pleadings, we are confident that Southwestern Bell will be found to have met the requirements of the Act.

We would appreciate your support of our federal application, as well as our filings with the OCC. However, if you intend to file at the FCC because you disagree with Southwestern Bell's position, and you believe that a meeting might help to narrow the issues in dispute, please contact me at (314) 331-9700, to discuss your concerns and, if necessary, arrange such a meeting. Southwestern Bell is required to submit a statement of its efforts to narrow any disputed issues within five days of submitting its application with the FCC, so your cooperation and prompt response to this letter would be appreciated.

A copy of the FCC Notice containing the specific application procedures and comment requirements is attached for your information. Please feel free to give me a call at (314) 331-9700 with any questions.

Sincerely,

Marvin A. Thomason

We are pleased that several facilities based local service providers (LSPs) and resellers have reached agreement or are negotiating comprehensive interconnection agreements with Southwestern Bell Telephone Company (SWBT) in Oklahoma. Implementation of these agreements will extend the benefits of the Telecommunications Act of 1996 (the "Act") to your customers and continue the expansion of competitive local telecommunications alternatives to business and residential customers in the state.

As you may be aware, on March 17, 1997 SWBT's Oklahoma Statement of Generally Available Terms and Conditions Under Sections 251 and 252 of the Telecommunications Act of 1996 (the "STC") went into effect. Based on its effective STC and approved interconnection agreements, SWBT and its affiliates, SBC Communications Inc. and Southwestern Bell Long Distance (collectively "Southwestern Bell"), anticipate filing an application in the near future with the FCC requesting authority for Southwestern Bell Long Distance to provide interLATA service originating in Oklahoma.

A draft copy of Southwestern Bell's proposed FCC application, demonstrating its compliance with the requirements of the Act for authorization to provide in-region interLATA service originating in Oklahoma, was filed with the OCC on February 20, 1997. Additionally, Southwestern Bell filed Comments in Support of Endorsement of Full InterLATA Competition in Oklahoma on March 11, 1997, and Reply Comments on March 25. After review of the evidence and arguments submitted in connection with the above pleadings, we are confident that Southwestern Bell will be found to have met the requirements of the Act.
