A7. COIN TELEPHONE SERVICE

**A7.4 Public Telephone Access Service For Customer Provided Equipment (CPE)
(Cont'd)**

A7.4.5 Rates and Charges (Cont'd)

A. Public Telephone Access Service for CPE - Rates and Charges applied by the Company (Cont'd)

3. Area Plus Service

a. The following monthly rate is applicable to Public Telephone Access Service for CPE on a per line basis for those telephones that subscribe to Area Plus Service in addition to c. and d. following.

b. Options

(1) Per Line for Twenty-Five Cents Stations

	Monthly Rate	USOC
(a) Option A	\$-	APA
(b) Option B ¹	-	APD
(c) Option C	3.00	APE
(d) Option D ¹	3.00	APG
(e) Option E	4.00	APH
(f) Option F ¹	4.00	APJ
(g) Option G	3.00	APK
(h) Option H ¹	3.00	APL

(2) Per Line for Ten Cents Stations

(a) Option A	-	APD
(b) Option B ¹	-	AP3
(c) Option C	3.00	AP4
(d) Option D ¹	3.00	AP6
(e) Option E	4.00	AP7
(f) Option F ¹	4.00	AP8
(g) Option G	3.00	AP9
(h) Option H ¹	3.00	AP5

c. Access Line Rate

The appropriate business access line rate as described in A3.2.3 of this Tariff apply.

d. Local Usage

The rates and regulations for local usage in A3.2.3 of this Tariff are applicable with the exception of A3.2.3.B.2.c. Public Telephone Access Service for CPE is not subject to the billed usage limit.

4. Billed Number Screening

a. The following monthly rates are applicable for Billed Number Screening.

(1) Per line screened

(a) Each	1.00	PSE31
----------	------	-------

Note 1: Options B, D, F and H may be provided at locations for which the Public Service Commission has granted a specific exemption.

Note 2: Calls within the local calling area are each charged for at least one (1) minute of use. For local calls that exceed one (1) minute, usage charges are based on conversation time rounded up to the nearest one tenth (1/10) minute.

A7. COIN TELEPHONE SERVICE**A7.8 SmartLine® Service for Public Telephone Access (Cont'd)****A7.8.2 Rates and Charges (Cont'd)**

- F. Sent paid intraLATA long distance calls will be rated to the end user at the long distance rate and the appropriate operator surcharge set forth in Section A18. of this Tariff. The SmartLine® service subscriber will be charged the long distance rate set forth in Section A18.
- G. Non-sent paid intraLATA toll calls will be rated to the end user at the long distance rate and the appropriate operator surcharge set forth in Section A18. of this Tariff.
- H. Touch-Tone Calling Service will be provided at rates specified in Section A13. of this Tariff for business individual line service.
- I. The SmartLine® service subscriber will be charged for Directory Assistance Service at the rate specified in Sections A3. and A18. of this Tariff.
- J. Service charges as covered in Section A4. of this Tariff for business individual line service are applicable.
- K. Listings in connection with SmartLine® service are furnished under the regulations specified in Section A6. of this Tariff for Company and Customer Owned Telephone Service.
- L. Suspension of service, as covered in Section A2., is not available unless the instrument is totally inaccessible to the general public on a temporary basis. In all cases, the decision to permit temporary suspension of service rests with the Company.
- M. When service is temporarily suspended at the subscriber's request, a Line Change Charge as specified in Section A4. will be charged for each telephone number restored.
- N. Rates for Verification and Emergency Interrupt Service as provided in Sections A3. and A18. of this Tariff are applicable. The network will require a deposit be made by the end user unless charged to an alternate billing method.

A7.9 Reserved For Future Use**A7.10 Coin Refund and Repair Referral Service (CRS)****A7.10.1 General**

- A. Coin Refund and Repair Referral Service (CRS) provides handling of refund requests and repair referrals generated by the end users of Independent Payphone Provider (IPP) public telephones. End users may request refunds for coins lost during an attempt to place local, intraLATA, or interLATA calls and/or submit repair/trouble reports for the IPP public telephone to the Company's operator services.
- B. CRS is available to any IPP outside confinement facilities which also subscribes to Operator Screening. CRS will not be provided for pay telephones located in confinement facilities.

A7.10.2 Regulations

- A. All access lines subscribed to CRS must be subscribed to the same option.
- B. The IPP public telephone must include detailed instructions on how to obtain refund and repair referral assistance.
- C. The Coin Refund portion of the service will be provided on one of the following options:
 1. Option 1 - The Company operator will take the refund request from the end user and forward the information to the IPP for processing.
 2. Option 2 - The Company operator will take the refund request from the end user. If the request is for a credit to the end user's account with the Company, the operator will issue the credit. Any other refund request will be forwarded to the IPP for processing.
 3. Option 3 - The Company operator will take the refund request from the end user and issue a credit or draft as requested by the end user.
- D. Repair referral service will be offered with any of the coin refund options or on a stand alone basis. The Company operator will take the repair report from the end user and refer to the IPP for handling.

**Re: Ex Parte Letter from Ben G. Almond, BellSouth
Telecommunications, Inc., dated April 9, 1997
CC Docket No. 96-128**

Dear Mr. Caton:

I am writing on behalf of the North Carolina Payphone Association ("NCPA") in response to the April 9, 1997 *ex parte* letter of Ben G. Almond on behalf of BellSouth Telecommunications, Inc. ("BellSouth") in the above-referenced matter. The NCPA is an association of North Carolina pay telephone providers which serves as an advocate for the pay telephone industry and engages in educational and "self-regulatory" activities to help ensure the responsible provision of pay telephone services to the public.

NCPA submits this letter in order to register disagreement with certain statements made in BellSouth's April 9 *ex parte* letter and to oppose the approval of BellSouth's CEI plan as well as BellSouth's eligibility for dial around compensation.

By Order dated April 4, 1997, the Commission required each Bell Operating Company ("BOC") to file an *ex parte* letter by April 10, 1997 "advising on the status of intrastate tariffs for the unbundled features and functions that [a BOC] has not yet federally tariffed, and stating that

No. of Copies rec'd 041
List ABCDE

Mr. William F. Caton
April 14, 1997
Page 2

it commits to filing federal tariffs for such features and functions within 45 days of the release date of this Order." Order, CC Docket No. 96-128, DA 97-678 (Released: April 4, 1997) (the "Order").

As clarified by the April 4 Order, unbundled "payphone-specific, network-based features and functions used in configuring unregulated payphone operations" must be tariffed at the federal level. The Commission identified the following specific examples of unbundled features and functions which must be tariffed at the federal level: answer supervision, call screening, call blocking, coin supervision, coin signaling, coin rating, original line number screening, and IDD blocking.

In its April 9 *ex parte* letter, BellSouth states: "As of this date, there are no payphone-specific, network-based, unbundled features and functions provided to others or taken by BellSouth's payphone operations that are tariffed by BellSouth at the intrastate level." At least as to its North Carolina operations, this statement is incorrect.

Contrary to BellSouth's representation, BellSouth offers a wide range of blocking and screening features on an unbundled basis in North Carolina. BellSouth's "Central Office Blocking and Operator Screening" service allows pay telephone providers to subscribe to any of eleven (11) separate packages of central office blocking and operator screening functions. See Exhibit A for copy of North Carolina tariff A7.4.4. The packages include such features as third number and collect call blocking, screening to prevent operator assisted sent-paid calls from being billed to the pay telephone line, and central office blocking of certain calls such as 1+DDD and 10XXX direct dial calls. These services are offered on both an inward and outward calling basis.

In addition, BellSouth offers "Coin Refund and Repair Referral Service" as an unbundled feature in North Carolina. See Exhibit B for copy of North Carolina tariff A7.10. This feature provides handling of refund and repair requests generated by end users of pay telephones. In the event that the Commission concludes that this feature falls within the Commission's definition of "payphone-specific, network-based features and functions used in configuring unregulated payphone operations," BellSouth must also tariff this feature at the federal level.

Finally, it should be noted that BellSouth has not filed intrastate tariffs at cost-based rates in North Carolina, and, therefore, as clarified by the Commission's April 4 Order, BellSouth is not eligible to receive dial around compensation. The rates currently in effect for basic payphone service are rates which have been in effect for approximately ten (10) years. BellSouth has not filed cost studies with the North Carolina Utilities Commission nor has it filed any tariffs proposing to reduce existing rates to cost-based levels, as required by the Commission's Orders implementing Section 276 of the Communications Act. The North Carolina Utilities Commission, however, has instituted a proceeding to require BellSouth and other North Carolina LECs to

Mr. William F. Caton
April 14, 1997
Page 3

reduce payphone rates to cost-based rates. As a first step, the Utilities Commission has requested "procedural" comments concerning this proceeding. These comments are due on April 17. See Exhibit C, Order Requesting Procedural Comments.

For the reasons expressed herein, as well as the reasons expressed in the Comments of the Southeastern Public Communications Coalition filed in this proceeding, NCPA respectfully urges the Commission to reject BellSouth's CEI plan pending satisfactory compliance with the Commission's requirements. In addition, in view of BellSouth's failure to comply with the federal tariffing requirement as well as its complete failure to file intrastate tariffs for payphone services and features which are cost-based, NCPA urges the Commission to enter an order declaring that BellSouth is not eligible to receive dial around compensation.

If any questions should arise during the course of your consideration of this matter, it is respectfully requested that you communicate with this office.

Very truly yours,

BROOKS, PIERCE, McLENDON,
HUMPHREY & LEONARD, L.L.P.

(Cont'd)**

A7.4.4 Optional Service Features

A. Central Office Blocking with Operator Screening

Central Office Blocking with Operator Screening is offered where facilities permit to provide a choice of restrictions at the subscriber's option. These options will be available for Public Telephone Access Service for CPE as follows:

1. Option 1 - Two-Way Service. Provides that third number and collect calls to Public Telephone Access Service for CPE are not allowed.
2. Obsolete (See A107.2).
3. Option 2 - Two-Way Service. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Further, third number and collect calls to Public Telephone Access Service for CPE are not allowed.
4. Obsolete (See A107.2).
5. Option 3 - Two-Way Service. Provides central office blocking of 7 or 10 digit local, 976, 1+DDD, all 10XXXX or 101XXXX direct dialed calls and 1+900 calls. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Further, third number and collect calls to Public Telephone Access Service for CPE are not allowed. Provides central office blocking of 011+, 10XXXX 011+ and 101XXXX 011+ calls.^{1,2}
6. Obsolete (See A107.2).
7. Option 4 - Two-Way Service. Provides central office blocking of 976, 1+DDD, all 10XXXX or 101XXXX direct dialed calls and 1+900 calls. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Further, third number and collect calls to Public Telephone Access Service for CPE are not allowed. Provides central office blocking of 011+, 10XXXX 011+ and 101XXXX 011+ calls.^{1,2}

Note 1: Provides central office blocking of direct distance dialed international (011+, 10XXXX 011+ and 101XXXX 011+) calls to numbers outside the North American Number Plan.

Note 2: Intrastate Directory Assistance calls dialed 1+919+555-1212, 1+910+555-1212 or 1+704+555-1212 will be completed and will not be blocked in the central office.

A7.4.4 Optional Service Features (Cont'd)

A. Central Office Blocking with Operator Screening (Cont'd)

8. Obsolete, See A107.2
9. Option 5 - Two-Way Service. Provides that third number and collect calls to Public Telephone Access Service for CPE are not allowed. Provides central office blocking of 011+, 10XXX 011+ and 101XXXX 011+ calls.^{1,2}
10. Option 6 - Two-Way Service. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Third number and collect calls to Public Telephone Access Service for CPE are not allowed. Provides central office blocking of 011+, 10XXX 011+ and 101XXXX 011+ calls.^{1,2}
11. Option 7 - Outward Only Service. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Provides central office blocking of 011+ calls.^{1,2}
12. Option 8 - Outward Only Service. Provides central office blocking of 7 or 10 digit local, 976, 1+DDD, 1+900 and 011+ calls. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line.^{1,2}
13. Option 9 - Outward Only Service. Provides central office blocking of 976, 1+DDD, 1+900 and 011+ calls. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line.^{1,2}
14. Option 10 - Two-Way Service for use in confinement facilities utilizing line concentration. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Third number and collect calls to Public Telephone Access Service for CPE are not allowed.
15. Option 11 - Two-Way Service for use in confinement facilities utilizing line concentration. Provides screening information to the operator to prevent operator assisted sent-paid calls from being billed to the line. Third number and collect calls to Public Telephone Access Service for CPE are not allowed. Provides central office blocking of 011+, 10XXX 011+ and 101XXXX 011+ calls.

- B. Third number and collect calls billable to the line are not allowed, special equipment serving the originating caller's location is required to make this feature operable. Where such equipment is installed, call attempts which have been screened will not be completed. The operator will advise the calling party that alternative billing arrangements will have to be made before the call can be completed. Where such equipment is not installed, call attempts on a third number basis will be completed but will not be billed to the Public Telephone Access Service line pending investigation. All Public Telephone Access Service subscribers are advised that calls so completed will be thoroughly investigated as fraudulent calls. The party placing these calls will be expected to make full restitution and will be legally responsible for them. Call attempts on a collect basis which are accepted at the Public Telephone Access Service location will be billed to the Public Telephone Access Service line. Payment for these collect calls will be required.

Note 1: To the monthly rate shown, add an amount equivalent to sixty percent of the business individual line flat rate.

Note 2: Provides central office blocking of 011+ calls direct distance dialed to numbers outside the North American Numbering Plan.

Note 3: For the Access Line Feature Options which do not offer central office blocking of 900 and 976 calls, the feature is available at the request of the subscriber as provided under Customized Code Restriction (CCR) Option Number 4 defined in A13.20 of this Tariff.

**NORTH CAROLINA UTILITIES COMMISSION
ORDER REQUESTING PROCEDURAL COMMENTS**

**STATE OF NORTH CAROLINA
UTILITIES COMMISSION
RALEIGH**

DOCKET NO. P-100, SUB 84b

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of		
Petition of North Carolina Payphone Association)	ORDER REQUESTING
for Review of Local Exchange Company Tariffs for)	PROCEDURAL
Basic Payphone Services)	COMMENTS

BY THE COMMISSION: On March 20, 1997, the North Carolina Payphone Association (NCPA) filed a petition in this docket requesting that the Commission do the following:

1. Initiate separate proceedings to (i) reduce local exchange company (LEC) rates to eliminate subsidies to the LECs' payphone operations and (ii) reduce LEC payphone service tariffs to cost-based rates;
2. Require LECs to submit the information identified in Paragraph 13 of the NCPA's petition relating to payphone costs and revenues so that subsidies to payphone operations can be identified and eliminated;
3. Require LECs to submit the cost information required by the Federal Communications Commission's (FCC's) new services test identified in Paragraph 22 of the NCPA's petition;
4. Require LECs to restructure all tariffs for basic payphone services so that they comply fully with the FCC's requirements set forth in CC Docket No. 96-128;
5. Consolidate review of the tariff filings of BellSouth, Carolina and Central, GTE, ALLTEL, Concord, and TDS Telecom (Barnardsville Telephone Company; Saluda Mountain Telephone Company; and Service Telephone Company), as well as any other LEC tariff filings made in response to FCC Orders in CC Docket No. 96-128, into this single docket.
6. Suspend the effectiveness of the above-referenced tariffs pending the completion of the investigation required by the FCC's Orders in CC Docket No. 96-128; and
7. For such other and further relief as is just and proper.

On March 24, 1997, the Commission received for information at its Regular Commission Conference a Public Staff agenda item concerning the tariff filings made by certain LECs. The NCPA urged the Commission to suspend the filings.

WHEREUPON, the Commission reaches the following

CONCLUSIONS

After careful consideration, the Commission concludes that the LEC tariff filings made pursuant to the FCC Order should not be suspended, because this would definitively render the LECs out of compliance with the FCC Order, and that interested parties should be given the opportunity to provide comments on how this docket should be addressed procedurally, prior to any decision to consider the NCPA's petition on its merits.

IT IS, THEREFORE, ORDERED as follows:

1. That parties desiring to file written comments and recommendations concerning how to proceed procedurally on the NCPA's petition shall do so no later than Thursday, April 17, 1997.
2. That all parties to Docket No. P-100, Sub 84 shall be made parties to this docket.
3. That the Chief Clerk shall mail a copy of this Order to all COCOT certificate holders, but any COCOT certificate holder or any other person desiring to actively participate in this docket must be granted intervention status pursuant to Commission Rules R1-3, R1-5, and R1-19. Parties are not required to serve filings on persons who are not parties.
4. That the NCPA's suspension request regarding certain LEC tariffs appearing in the Public Staff's agenda item on March 24, 1997, and in Paragraph No. 5 of the NCPA's request for relief in this docket is hereby denied.

ISSUED BY ORDER OF THE COMMISSION.

This the 31st day of March, 1997.

Re: NYNEX Telephone Companies Comparably
Efficient Interconnection Plan For Payphone Services;
CC Docket No. 96-128

Dear Mr. Caton:

The NYNEX Telephone Companies¹ ("NYNEX") submit this Ex Parte in compliance with the Chief, Common Carrier Bureau's Order released April 4, 1997, in CC Docket No. 96-128.² NYNEX hereby commits to filing federal tariffs by May 19, 1997, on 15 days' notice, for the state-tariffed unbundled features and functions noted below associated with payphone lines. Pursuant to Section 1.1206(a)(1) of the Commission's Rules, two copies of this submission are provided for inclusion in the public record in the above-referenced proceeding.

The features and functions NYNEX will federally tariff are:

- line side answer supervision,
- direct dial screening,
- operator number screening, and
- terminating number screening.

¹ New England Telephone and Telegraph Company and New York Telephone Company.

² Implementation Of The Pay Telephone Reclassification And Compensation Provisions Of The Telecommunications Act Of 1996, paras. 1, 22, 37.

No. of Copies rec'd
List ABCDE

021

These features and functions were previously identified in NYNEX's Ex Parte letter of March 19, 1997 in this proceeding, responding to questions from the Competitive Pricing Division of the Common Carrier Bureau, as state-tariffed, network-based features and functions generally available on payphone related exchange services.

Current state availability of these features and functions is shown in the table below.

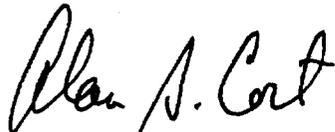

Feature & Function	State	Date Filed	Date Effective
line side answer supervision	New York	4/11/94	7/1/94
direct dial screening	Maine	*	*
	Massachusetts	1/16/85	2/15/85
	New Hampshire	12/14/85	1/13/85
	Rhode Island	4/23/86	5/30/86
	Vermont	12/14/84	1/28/85
operator number screening	Maine	*	*
	Massachusetts	1/16/85	2/15/85
	New Hampshire	12/14/85	1/13/85
	Rhode Island	4/23/86	5/30/86
	Vermont	12/14/84	1/28/85
terminating number screening	Connecticut	*	*
	Maine	*	*
	Massachusetts	1/16/85	2/15/85
	New York	*	*
	New Hampshire	12/14/85	1/13/85
	Rhode Island	4/23/86	5/30/86
	Vermont	12/14/84	1/28/85

Notes:

- Terminating number screening is called billed number screening in New York and Connecticut.
- International direct dial blocking and 900 blocking are currently available in all state tariffs as well as the federal tariff.
- * indicates dates not presently available.

Questions regarding this matter should be directed to me at the above noted address or telephone number.

Very truly yours,

Re: NYNEX Telephone Companies
Comparably Efficient Interconnection
Plan for Payphone Services;
CC Docket No. 96-128

Dear Secretary Caton:

The undersigned is the attorney for the Independent Payphone Association of New York, Inc. (IPANY), which submitted comments to the Commission on the NYNEX CEI Plan on February 6, 1997. This letter is in response to the ex parte filing of NYNEX made on April 10, 1997.

In that filing NYNEX indicates it will federally tariff only four unbundled features and functions:

- line side answer supervision,
- direct dial screening,
- operator number screening, and
- terminating number screening.

IPANY objects to limiting a federal tariff to those four elements on the ground that New York Telephone's current New York State tariff lists many more unbundled elements and types of service.

Attached for the Commission's reference are the current version of pages 9 through 18 of Section 3 of New York Telephone's PSC No. 900 - Telephone tariff. These pages set forth the rates and regulations for Public Access Lines (ordered by independent payphone providers using "smart" pay telephones) and for "Public Access SmartLine Service", which is the "coin line" to be used by New York Telephone to connect its "dumb" pay telephones to the network.¹

The public access lines utilized by IPPs in New York are offered in four distinct

¹ Third Revised Page 9.2 describes the "coin compatible public access line" which is the "coin line" New York Telephone has offered to independent payphone providers up to this point in time. That service has been grandfathered, and will be replaced by the Public Access SmartLine Service described on page 14. As IPANY previously noted to the Commission, when the only purchaser of the "coin line" was the IPP, the price was \$31.50. Now that New York Tel's payphone division will be required to purchase the exact same service, the price has suddenly dropped to \$23.72 (IPANY Comments, February 6, 1997, at pp. 9-10).

arrangements:

- Basic Public Access Line (BPAL)
- Enhanced BPAL
- Limited InterLATA Dialing Access Line (LIDPAL)
- Enhanced LIDPAL

Those different arrangements combine various unbundled elements which should be separately tariffed, but will not be according to NYNEX's April 10, 1997 letter.

For example, the rate for the BPAL (two-way) is \$15.47. It is also possible to order a BPAL with outward call screening (OCS), for which the rate is \$17.72. The only apparent difference between these two services is the additional of OCS which is provided at an incremental price of \$2.25. Thus, OCS is in itself an unbundled service or functionality which should be separately tariffed on the federal level.

If New York Tel were to tariff OCS as an unbundled element, it is hardly likely that this Commission would approve the excessive price of \$2.25 as meeting the relevant costing and pricing standard. OCS involves simply the transmission of an extra pair of digits in the ANI or BTN stream, so that an operator service provider can be aware of when a call originates at a pay telephone. The cost of adding those two digits to the stream would be minuscule.

Both the LIDPAL and the Enhanced LIDPAL are actually a bundling of a number of
