The Honorable James Quello, Commissioner
Federal Communications Commission
1919 M Street, NW
Room 844
Washington, DC 20554

RECEIVED

MAY 1 1997

RE: Docket No. 96-45

Dear Commissioner Quello:

I am the Computer Teacher from the Immaculate Conception School, Diocese of Savannah, and would like to thank you for your dedication in ensuring that all school districts and education consortia will have affordable access to the Information Superhighway.

The Telecommunications Act and the Federal-State Joint Board decision will guarantee that all school districts will have the opportunity to connect to the Internet and provide distance-learning opportunities. The \$2.25 billion a year will address the needs of all our schools, and importantly, the plan will bring services directly into the classroom where students learn. Your inclusion of internal classroom connections for discounts is vital to this process. This plan is also essential in preparing our students for Workforce 2000.

It is the belief of the general population that students attending Catholic schools receive the best of everything. It is true that the quality of a Catholic education is remarkable, yet many of our schools, including this one, are unable to afford to keep up with the recent trends in technology. The discounts would enable us to completely fulfill our educational goals by providing impoverished students with the same opportunities as more affluent public and private schools through exposure to the Internet and other long-distance learning.

Our immediate technological goal at Immaculate Conception is to provide the

Computer Lab, the library, and each classroom with at least one Internet accessible computer. Our research shows that local Internet Providers are willing to install the necessary programs at no charge, and provide monthly service at a nominal fee, but we do not have a single computer with a modem or enough memory to provide us with Internet access. We also are unable to install telephone lines to the classrooms due to a lack of funding. Our ultimate goal is to network our Computer Lab to the individual classrooms, giving teachers and students complete access to educational software available in the lab.

Evidently, our students need deep discounts for telecommunications services this year. The parents, faculty, administration, and friends of Immaculate Conception urge the FCC to fully support the Joint Board's discount plan for universal services to schools. Enclosed is a copy of the petition signed by the members of the Immaculate Conception community, demonstrating our support for the passage of the Telecommunications Act of 1996.

Thank you.

Sincerely,

Vanessa W. Walters

On May 8, 1997, the four FCC Commissioners will vote on giving "E-rates", i.e. educational rates in the implementation of the 1996 Telecommunication Act for schools and libraries. We urge you to support the implementation of the E-rates, and defend the rights of students attending private or parochial schools to have access to the funds and discounts which this act makes available, by signing this petition.

On May 8, 1997, the four FCC Commissioners will vote on giving "E-rates", i.e. educational rates in the implementation of the 1996 Telecommunication Act for schools and libraries. We urge you to support the implementation of the E-rates, and defend the rights of students attending private or parochial schools to have access to the funds and discounts which this act makes available, by signing this petition.

Thank you.

30		El... Augusta GA 30901

On May 8, 1997, the four FCC Commissioners will vote on giving "E-rates", i.e. educational rates in the implementation of the 1996 Telecommunication Act for schools and libraries. We urge you to support the implementation of the E-rates, and defend the rights of students attending private or parochial schools to have access to the funds and discounts which this act makes available, by signing this petition.

Thank you.
