In re: Submission of Information Regarding LMAs
Docket Nos. 91-221, 87-8, 94-150, 92-51 and 87-154

Dear Sir:

As your files will indicate the licensees of Stations WDKA (TV), Paducah, Kentucky and KBSI (TV), Cape Girardeau, Missouri, filed a response to the Commission's request for LMA information on July 8, 1997. For convenience, a copy of the stamped-in copy of this submission is attached hereto.

Numbered paragraph 5 correctly states that the term of the Agreement is 10 years, but incorrectly refers to the execution date as the beginning of the term. The commencement date was June 6, 1997, and the term is thus June 6, 1997 - June 6, 2007. Also, numbered paragraph 5 refers to a right of first refusal. The provision referred to is actually notice given to the Brokering Station of commencement of negotiation with third parties rather than a right of first refusal and there is no right of first refusal.

If any further information is requested in regard to this matter, please contact undersigned counsel.

Sincerely,

WILLIAM M. BARNARD

WMB/sls

WDKA-TV Public Interest Benefits

Prior to the time brokerage agreement, only a construction permit existed for WDKA-TV. Under the time brokerage agreement WDKA was able to be built at a significant investment including tower, transmitter and studio.

The time brokerage agreement with WDKA resulted in the hiring by the broker of 12 new employees, which in a medium size market is a significant number, in addition to the licensee's employees.

The station provides an important full time outlet to the new UPN Network which will help the new network grow and compete with the established networks.

The station provides more children's educational programming to the market as well as additional sports programming, such as St. Louis Cardinals baseball games, College Football and Basketball games.

Providing a fifth station to the market allowed very good syndicated programming to again be seen in the market, such as the highly acclaimed Cheers, Matlock, Coach. WDKA also provides another voice for significant public service announcements.
