PART 23

SECTION 1

PART 23 - Interconnection Service for Local
Exchange Telecommunications Carriers
SECTION 1 - General

Original Sheet No. 1

1. GENERAL

A. DESCRIPTION

Interconnection Services are available to telecommunications carriers for use in the provision of a telecommunications service as specified and to the extent required by the Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996) ("the Act") and the rules and regulations of the Federal Communications Commission and the Michigan Public Service Commission.

This Part applies to Interconnection Services provided by Ameritech Michigan, hereafter referred to as the "Company."

General Regulations as found in Part 2 of this Tariff apply to this Part unless otherwise specified in this Part. The term "customer," which appears in Part 2 General Regulations, is the equivalent of the term "telecommunications carrier" as defined by the Act and used in this Part (sometimes referred to herein as Carrier). Any references in this Part to service descriptions contained in other sections of this tariff shall include all definitions. Unless expressly provided to the contrary herein, however, such references do not incorporate the terms, conditions, or rates and charges contained in the referenced material. Where service descriptions use the terms "customer" or "subscriber," such terms shall be deemed to mean:

- "Carrier" (as defined in this Part) when the context concerns ordering service including requesting repair, including authorization for the dispatch of service technicians to the Carrier's Customer's premises and performance of any premises work; and billing responsibility for the provision of service ordered by Carrier, and the use, activation, or premature termination of service by Carrier.
- "Carrier's Customer" (as defined in this Part) when the context concerns the definition of: the service location (premises); the configuration and sizing of the telecommunications system, network, including any aspects or capabilities of service, are used, activated, or accessed.

Issued under authority of M.P.S.C. Order dated 7/14/97

Case No. U-11280

Issued: July 24, 1997

Effective: July 25, 1997

By Paul V. LaSchiazza, Vice President - Regulatory
Detroit, Michigan

1. GENERAL (cont'd)

A. DESCRIPTION (cont'd)

This Part contains a schedule of rates and regulations applicable to Interconnection Services. Currently the following types of Interconnection Services are available:

- Ameritech End Office Integration Service - Section 2
- Emergency Number Service Access (ENSA) - Section 3
- Collocation Services - Section 4

The Interconnection Services provided in this section are exclusively for use by "telecommunications carriers." The Company's Interconnection Services provide interconnection to the Company's network or access to the Company's unbundled network elements. When a telecommunications carrier seeks technically feasible interconnection in a manner not offered by this section, the telecommunications carrier may request an alternative form of interconnection via the "Bona Fide Request" Process.

A "Bona Fide Request" (hereafter referred to as BFR), as referenced in this tariff, is a telecommunications carrier's written request to the Company to provide:

- a service not currently offered in the tariff,
- a requested different level of quality of a service than Ameritech Michigan currently provides to itself, or
- a customized service for features, capabilities, functionalities or unbundled network elements not currently otherwise provided under the tariff.

The Bona Fide Request includes a technical description of each requested feature, capability, functionality or unbundled network element requested.

The Company will provide interconnection or access to unbundled network elements, for the provision of telecommunications service, at other technically feasible points within the Company's network (e.g., mid-span meet) on a Bona Fide Request basis.

B. TERMS AND CONDITIONS

Responsibility of the Company

The Company is not responsible to the telecommunications carrier if necessary changes in protection criteria or in any of the facilities, operation, or procedures of the Company render any facilities provided by a telecommunications carrier obsolete or render modification of the telecommunications carrier's equipment necessary.

Use of Service

General

• Unlawful Use of Service

Service shall not be used for any purpose in violation of law. The Carrier, and not the Company, shall be responsible to ensure that Carrier and its customers' use of the services provided hereunder complies at all times with all applicable laws. The Company may refuse to furnish service to a Carrier applicant or shall disconnect the service of a Carrier or as appropriate the Carrier's Customer when:

- An order is issued by a court, the Michigan Public Service Commission or any other duly authorized agency, finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law, or
- The Company is notified in writing by a Law Enforcement Agency acting within its jurisdiction that any facility furnished by the Company is being used or will be used for the purpose of transmitting or receiving gambling information in interstate or foreign commerce in violation of law.

Termination of service shall take place after reasonable notice is provided the Carrier, or as ordered by the Court.

If communications facilities have been physically disconnected by Law Enforcement officials at the premises where located, and if there is not presented to the Company the written finding of a court of competent jurisdiction authorizing such disconnection, then upon written request of the Carrier, and agreement to pay restoration of service charges and other applicable Service Charges, the Company shall promptly restore such service.

Liabilities

Liabilities Between Parties

Liability of the Company to the telecommunications carrier and the telecommunications carrier to the Company, resulting from any and all causes, shall not exceed the liability of the Company as set forth herein and in other Sections of this tariff. Specifically, the Company and the telecommunications carrier shall each be liable only for the service(s) or facility(ies) that each provides. Neither the Company nor the telecommunications carrier shall bear any responsibility for the services and facilities provided by the other, Affiliates of the other, or agents, subcontractors, or other persons retained by the other. Neither the Company nor the telecommunications carrier shall be liable for any act or omission of another telecommunications carrier (other than an Affiliate) providing a portion of a service. A Party's liability, whether in contract, tort or otherwise, to the other Party shall not exceed the amounts properly charged for the service or facility (ies) by such Party for the period of time during which such Party failed to provide the service(s) or facility(ies). Notwithstanding the foregoing, in cases involving any Claim for a Loss associated with the installation, provision, termination, maintenance, repair or restoration of an individual Network Element or combination or a resale service provided for a specific customer of the telecommunications carrier, the Company's liability to the telecommunications carrier shall be limited to the greater of: (i) the total amount properly charged to the telecommunications carrier for the service or function not performed or improperly performed and (ii) the amount the Company would have been liable to its customer if the comparable retail service was provided directly to its customer.

1. GENERAL (cont'd)

B. TERMS AND CONDITIONS (cont'd)

Liabilities (cont'd)

Liabilities Between Parties (cont'd)

In no case shall either the Company or the telecommunications carrier be liable to the other for any indirect, special, consequential, incidental or punitive damages, including, but not limited to, economic loss, lost business, revenues, or profits (collectively "Consequential Damages"), whether foreseeable or not, and regardless of notification by, the other party of the possibility of such damages. This limitation shall not limit any right the Company or a telecommunications carrier may have to be indemnified, defended or held harmless against any amounts payable to a third person, including any losses, costs, fines, penalties, criminal or civil judgments or settlements, expenses (including attorney's fees) and Consequential Damages of such third person. The Company and the telecommunications carrier agree that this allocation of risk and liability is fair and reasonable.

SECTION 1 - General

Original Sheet No. 8

1. GENERAL (cont'd)

B. TERMS AND CONDITIONS (cont'd)

Liabilities (cont'd)

Liabilities to Other Parties (cont'd)

The telecommunications carrier and the Company shall indemnify, defend and hold each other harmless for and against any claim, loss or damage, asserted by any person related to or arising out of the acts or omissions of the other party or by customers, employees, agents, or contractors of the other party against whom indemnification is sought. In such cases, the indemnifying party shall reimburse the other for all of the non-defending party's costs, expenses or judgments including attorney's fees. Each party agrees to notify the other promptly of any matters for which the foregoing indemnity may apply. Failure to so notify the indemnifying party shall not relieve such party of any liability or responsibility, except to the extent that such failure prejudices the ability of the indemnifying party to defend any action or claim. The indemnifying party shall have the right to defend against such liability or assertion in which event the indemnifying party shall give written notice to the indemnified party of acceptance of the defense of such claim and the identity of counsel selected by the indemnifying party. Until such time as indemnifying party provides such written notice of acceptance of the defense of such claim, the indemnified party shall defend such Claim, at the expense of the indemnifying party, subject to any right of the indemnifying party, to seek reimbursement for the costs of such defense in the event that it is determined that indemnifying party had no obligation to indemnify the indemnified party for such Claim. The indemnifying party shall have exclusive right to control and conduct the defense and settlement of any such claims subject to consultation with the Indemnified Party. The indemnifying party shall not be liable for any settlement by the indemnified party unless such indemnifying party has approved such settlement in advance and agrees to be bound by the agreement incorporating such settlement.

B. TERMS AND CONDITIONS (cont'd)

Liabilities (cont'd)

Liabilities to Other Parties (cont'd)

At any time, an indemnified party shall have the right to refuse a compromise or settlement and, at such refusing party's cost, to take over such defense; provided that in such event the indemnifying party shall not be responsible for, nor shall it be obligated to indemnify the relevant indemnified party against, any cost or liability in excess of such refused compromise or settlement. With respect to any defense accepted by the indemnifying party, the relevant indemnified party shall be entitled to participate with the indemnifying party in such defense if the claim requests equitable relief or other relief that could affect the rights of the indemnified party and also shall be entitled to employ separate counsel for such defense at such indemnified party's expense. If the indemnifying party does not accept the defense of any indemnified claim as provided above, the relevant indemnified party shall have the right to employ counsel for such defense at the expense of the indemnifying party. Each party agrees to cooperate and to cause its employees and agents to cooperate with the other party in the defense of any such claim and the relevant records of each Party shall be available to the other party with respect to any such defense, subject to any applicable restrictions and limitations set forth elsewhere in this Tariff.

PART 23

SECTION 2

PART 23 - Interconnection Service for Local
Exchange Telecommunications Carriers
SECTION 2 - Ameritech End Office Integration
Service

Original Sheet No. 1

1. AMERITECH END OFFICE INTEGRATION SERVICE

A. DESCRIPTION

End Office Integration is effected by interconnecting trunk circuits of the carrier's end office and/or tandem office switch to trunk circuits of the Company's end office and/or tandem office switch. AEOIS uses one of three optional network configurations (designated as Options 1, 2 and 4), selected by the carrier. Options 1 and 2 use Company-provided transport between the locations for interconnecting switches; Option 4 uses carrier-provided or third-party leased transport between the locations for interconnecting switches. Figure 1 (as shown in the following) depicts AEOIS optional network configurations.

• AEOIS Options 1 and 2

Linkage of networks under AEOIS Options 1 and 2 is established using certain of the Company's rates and regulations for cross-connect and local transport services (as referenced in Section 4 of this Part) and the specific regulations of this Section which govern end office and/or tandem office integration.

Both LT1 and LT3 transport are provided by the Company, as requested by the carrier; however, LT3 transport must be demultiplexed at the Company end office or tandem office to individual LT1 channels for interconnection to the Company switch. Spare LT1 channels of the LT3 transport may be connected to other compatible services or to interconnection services at the request of the carrier (see Section 4 of this Part for types of services or service components that can be connected). Rates and charges for those services or service components to be connected to the LT3 to LT1 multiplexer apply.

Interface of Company-provided transport at the carrier's end office location under AEOIS Option 1 is LT1 or LT3 electrical, as specified in TR-INS-000342, AEOIS Option 2 interface at the carrier's Central Office location is LT3 optical, as specified in AM-TR-TMO-000072.

SECTION 2

PART 23 - Interconnection Service for Local
Exchange Telecommunications Carriers
SECTION 2 - Ameritech End Office Integration
Service

Original Sheet No. 2

1. AMERITECH END OFFICE INTEGRATION SERVICE

A. DESCRIPTION (cont'd)

• AEOIS Option 4

Linkage of networks under AEOIS Option 4 is established using rates and regulations for Ameritech Collocation Services, as referenced in Section 4 of this Part.

AEOIS Option 4 is a collocation arrangement. Cross-Connection between the carrier-provided facility and the Company end office and/or tandem office switch is governed by the rates and regulations of Collocation Services, as referenced in Section 4 of this Part.

AEOIS is only available with SS7 signaling. When AEOIS is directly routed to an end office, only those valid NXX codes served by that end office may be accessed. When routed via a tandem office, only those valid Company NXX codes served by the end offices subtending that tandem may be accessed.

When routed via a Company tandem office to the end office(s) of third carrier which subtend that tandem ("subtending carrier"), the Company's intermediary transport and tandem switching of calls on behalf of the originating carrier to the subtending carrier is known as "transiting" as defined herein and will be provided to the originating carrier pursuant to terms and at rates set forth herein.

Transit service is the use of the Ameritech network to pass local and intraLATA toll traffic from the originating carrier's switch to the switch of a subtending telecommunications carrier. Transit traffic is delivered over interconnection end office integration trunks.
