PART 22 - Resale Local Exchange Service  
SECTION 8 - Miscellaneous Services

Original Sheet No. 4.1.1

**CALL RESTRICTION SERVICES (cont'd)**

**TOLL RESTRICTION (cont'd)**

*Following rates apply when Carrier provides OS/DA*

C. The following rates and charges are for Toll Restriction feature only, and are in addition to the established charge treatment for the service with which it is used.

Description /Billing Code/	Non- recurring Charge	Monthly Rate
Toll Restriction /RTVX5/	/1/	\$4.41

/1/ Not applicable when installed at the same time as the central office line. If added subsequent to the establishment of service, a Line Rearrangement Charge is applicable as specified elsewhere in this Catalog.

Issued: July 24, 1997

Effective: July 25, 1997

Regulatory  
Detroit, Michigan

**CALL RESTRICTION SERVICES (cont'd)**

**TOLL DIVERSION ARRANGEMENTS**

*Following rates apply when Ameritech provides OS/DA*

(C)

**A. Type I**

**1. Description**

Toll Diversion arrangements are available to divert station users from long distance and interzone access codes as indicated herein.

- a. Type I Toll Diversion is a central office feature available with Company provided Centrex systems or customer premises equipment.
- b. After April 28, 1984, new installations of Type I Toll Diversion will be provided only from ESS central offices or from electromechanical central offices that are equipped for this feature.
- c. Two classes of toll diversion are available: (1) to divert all long distance and inter-zone calls and (2) to divert all long distance calls only. If the carrier's customer has both classes of toll diversion, the rates and charges in 2.b. following apply for each class of toll diversion.
- d. When a station user attempts to dial a restricted call the call will be diverted. Depending upon the circumstances and facilities available, the call will be diverted to a distinctive tone, a recorded announcement, or to a PBX switchboard. If a PBX is equipped with Toll Terminals, long distance calls may be placed directly by the station user by dialing a preset code.

**2. Charges**

- a. The charges indicated below are in addition to all charges applicable to the class of service and stations with which the features are associated and for any miscellaneous services provided.

	<u>USOC</u>	<u>Nonrecurring Charge</u>	<u>Monthly Rate</u>	
b. Toll Diversion				
- Each trunk/line equipped	TDB	/1/	\$10.61	(I)

/1/ The Line Rearrangement charge specified in Section 2, in this Part, applies if not installed at the same time as the PBX system.

**CALL RESTRICTION SERVICES (cont'd)**

PART 22 - Resale Local Exchange Service  
SECTION 8 - Miscellaneous Services

**CALL RESTRICTION SERVICES (cont'd)**

**TOLL DIVERSION ARRANGEMENTS (cont'd)**

*Following rates apply when Ameritech provides OS/DA*

(C)

**B. Type II**

**1. Description**

- a. Type II Toll Diversion is available with Centrex CO Systems.
- b. Two classes of toll diversion are available: (1) to divert all long distance and inter-zone calls outside the local calling area, and (2) to divert all long distance calls only.
- c. When a user of a station line or tie line equipped with toll diversion dials a restricted code, the call will be diverted. Depending upon circumstances and facilities available, the call will be diverted to either a common Centrex announcement or to a distinctive tone to indicate that such calls cannot be completed as dialed.

**2. Charges**

- a. The charges indicated below are in addition to the regular charges for station lines or tie lines.
- b. If a Carrier's customer has more than one class of toll diversion described in 1.b. preceding, the rates and charges apply for each class of toll diversion provided.
- c. Station Lines and Tie Lines - Business service:

	<u>USOC</u>	<u>Nonrecurring Charge</u>	<u>Monthly Rate</u>	
- Each station line or tie line equipped for toll diversion	RJL	\$13.12 <sup>/1/</sup>	\$0.68	(I)

**d. Station Lines - Dormitory Service**

- (1) At the time service is established and at the beginning of a new school year, term, or semester no charge is applicable to provide or to remove Toll Diversion on Centrex dormitory service lines.

/1/ The Line Rearrangement charge specified elsewhere in Section 2, in this Part applies if not installed at the same time as the PBX system.

**CALL RESTRICTION SERVICES (cont'd)**

**TOLL DIVERSION ARRANGEMENTS (cont'd)**

*Following rates apply when Carrier provides OS/DA*

**B. Type II**

**1. Description**

- a. Type II Toll Diversion is available with Centrex CO Systems.
- b. Two classes of toll diversion are available: (1) to divert all long distance and inter-zone calls outside the local calling area, and (2) to divert all long distance calls only.
- c. When a user of a station line or tie line equipped with toll diversion dials a restricted code, the call will be diverted. Depending upon circumstances and facilities available, the call will be diverted to either a common Centrex announcement or to a distinctive tone to indicate that such calls cannot be completed as dialed.

**2. Charges**

- a. The charges indicated below are in addition to the regular charges for station lines or tie lines.
- b. If a Carrier's customer has more than one class of toll diversion described in 1.b. preceding, the rates and charges apply for each class of toll diversion provided.
- c. Station Lines and Tie Lines - Business service:

	<u>USOC</u>	<u>Nonrecurring Charge</u>	<u>Monthly Rate</u>
- Each station line or tie line equipped for toll diversion	RJL	\$12.14 <sup>/1/</sup>	\$0.63

**d. Station Lines - Dormitory Service**

- (1) At the time service is established and at the beginning of a new school year, term, or semester no charge is applicable to provide or to remove Toll Diversion on Centrex dormitory service lines.

/1/ The Line Rearrangement charge specified elsewhere in Section 2, in this Part applies if not installed at the same time as the PBX system.

**CALL RESTRICTION SERVICES (cont'd)**

**TOLL DIVERSION ARRANGEMENTS (cont'd)**

*Following rates apply when Ameritech provides OS/DA*

**B. Type II (cont'd)**

**2. Charges (cont'd)**

**d. Station Lines - Dormitory Service (cont'd)**

- (2) Provision of Toll Diversion at a time other than specified in (1) preceding. A nonrecurring charge of \$3.00 applies for each station line changed to Toll Diversion except that no charge is applicable where the Company initiates such a change involving a delinquent account under the Special Toll Billing Arrangement. (R)

- (3) Removal of Toll Diversion at a time other than specified in (1) preceding. No charge is applicable for removal of Toll Diversion except as indicated in the following:

Where the Company has placed the service on Toll Diversion because of a delinquent account and subsequently the account is reinstated for the Special Toll Billing Arrangement a nonrecurring charge of \$3.00 applies for the removal of Toll Diversion. (R)

**C. TYPE III**

**1. Description**

- a. The Type III arrangement provides toll diversion on Foreign Exchange (FX) trunks.
- b. Type III Toll Diversion is available with all types of Dial Switching systems where facilities permit.
- c. Type III Toll Diversion is available from any central office equipped to provide this feature.
- d. Two classes of toll diversion are available: (1) to divert all long distance and interzone calls outside the local calling area, (2) to divert all long distance calls only.
- e. When a station user dials a restricted code, the call will be diverted. Depending upon circumstances and facilities available, the call will be diverted to either a recorded announcement or to a distinctive tone to indicate that such calls cannot be completed as dialed.

**CALL RESTRICTION SERVICES (cont'd)**

**TOLL DIVERSION ARRANGEMENTS (cont'd)**

*Following rates apply when Carrier provides OS/DA*

**B. Type II (cont'd)**

**2. Charges (cont'd)**

**d. Station Lines - Dormitory Service (cont'd)**

- (2) Provision of Toll Diversion at a time other than specified in (1) preceding. A nonrecurring charge of \$2.78 applies for each station line changed to Toll Diversion except that no charge is applicable where the Company initiates such a change involving a delinquent account under the Special Toll Billing Arrangement.
- (3) Removal of Toll Diversion at a time other than specified in (1) preceding. No charge is applicable for removal of Toll Diversion except as indicated in the following:

Where the Company has placed the service on Toll Diversion because of a delinquent account and subsequently the account is reinstated for the Special Toll Billing Arrangement a nonrecurring charge of \$2.78 applies for the removal of Toll Diversion.

**C. TYPE III**

**1. Description**

- a. The Type III arrangement provides toll diversion on Foreign Exchange (FX) trunks.
- b. Type III Toll Diversion is available with all types of Dial Switching systems where facilities permit.
- c. Type III Toll Diversion is available from any central office equipped to provide this feature.
- d. Two classes of toll diversion are available: (1) to divert all long distance and interzone calls outside the local calling area, (2) to divert all long distance calls only.
- e. When a station user dials a restricted code, the call will be diverted. Depending upon circumstances and facilities available, the call will be diverted to either a recorded announcement or to a distinctive tone to indicate that such calls cannot be completed as dialed.

**D. TYPE IV**

**1. Description**

- a. The Type IV Toll Diversion arrangement diverts all message toll calls placed to telephone numbers outside of the carrier's customer's home numbering plan area.
- b. When a station user dials a restricted code, the call will be diverted to either a recorded announcement or to a distinctive tone to indicate that such calls cannot be completed as dialed.
- c. Type IV Toll Diversion is provided only with Centrex CO systems served from ESS central offices equipped to provide this feature.
- d. When an update of a No. 2 ESS central office is required specifically to provide this service, a nonrecurring charge specified in Section 2, in this Part is applicable.

**2. Rates and Charges**

The following rate and charges are in addition to the rates for station lines.

	<u>USOC</u>	<u>Nonrecurring Charges</u>	<u>Monthly Rate</u>	
Type IV Toll Diversion				
- No. 2 ESS central office update required specifically to provide Type IV Toll Diversion Arrangement	JOCMJ	\$3,201.60 <sup>/1/</sup>	-	(I)
- Per system	ETD	120.06	-	(I)
- Per station line equipped	ETA04	12.57 <sup>/2/</sup>	\$0.63	(I)

/1/ The No. 2 ESS central office is updated on a scheduled basis. This charge would apply only if the update were done at an unscheduled time to accommodate the provision of this service.

/2/ Not applicable if provided at the same time as the Centrex system or at the same time the station line is installed.

**OTHER MISCELLANEOUS SERVICES**

**MAKE BUSY OR BREAK HUNT FEATURE**

*Following rates apply when Ameritech provides OS/DA*

1. Make busy or break hunt are two methods of restricting traffic to certain PBX trunks or one-party central office lines for night, Sunday and holiday answering. With the arrangement a key is operated at the carrier's customer's location which either makes certain lines busy or breaks the hunting from certain lines at the central office so that incoming calls are directed to a certain one or more of a carrier's customer's group of lines. (C)

2. The features are available only with individual line service.

3. Charges

	<u>USOC</u>	<u>Nonrecurring Charges</u>	<u>Monthly Rates</u>	
a. Make Busy or Break Hunt Control equipment (Requires a customer-provided cut-off key.)	BRR/P89	-	\$5.08	(I)

Local channel facility

- (1) When the serving wire center and the Carrier's customer's control location are in the same wire center, one 2 wire voice grade Direct Analog Service Local Distribution Channel as specified in Tariff M.P.S.C. No. 20R, Part 21, is applicable.
- (2) When the serving wire center and the Carrier's customer's control location are in different wire centers, the channel charges are:
- (a) The Channel Mileage and Channel Mileage Termination rates and charge for a Direct Analog Service between the wire centers as specified in Tariff M.P.S.C. No. 20R, Part 21, are applicable.
- (b) Local channel to the carrier's customer's control location - Charges for one 2 wire voice grade Direct Analog Service Local Distribution Channel as specified in Tariff M.P.S.C. No. 20R, Part 21, are applicable.

**OTHER MISCELLANEOUS SERVICES**
