

**EXHIBIT II**  
**(Question 57)**

As reported by British Telecommunications plc and MCI Communications Corporation in FCC General Docket No. 96-245, MCI Communications Corporation is involved in the following litigation:

Graphnet, Inc. v. MCII, Civ. No. 93-2046, USDC New Jersey.

This is an antitrust and rate discrimination suit filed in federal court in Newark, N.J. alleging, among other claims, that MCI International, Inc. ("MCII") is charging predatory rates to its customers for telex traffic terminating to Graphnet customers. This case grew out of a tortious interference suit against MCII in New York state court for the hiring of certain Graphnet employees. In January 1994, MCII filed a motion for judgment on the pleadings, seeking dismissal of the antitrust counts.

In April and May 1994, the U.S. District Court in New Jersey dismissed Graphnet's antitrust conspiracy claim, and stayed Graphnet's attempted monopolization claim -- and its remaining state law claims -- pending an FCC determination of the reasonableness of MCII's customer tariff rates for telex messages. Graphnet has a pending formal complaint with the FCC, which MCII, represented by MCI Regulatory, has answered.

In February 1994, MCII filed a separate action against Graphnet in federal court to recover over \$700,000 in past due charges for voice traffic. MCII was awarded its past due charges on its claim following a trial on the merits.
