RE: CC Docket 96-262 - Access Charge Reform

Sprint's International Settlements Policy (ISP) Modifications for change in Accounting Rate for Switched voice Service in Mexico - ISP 97-M-708

Telmex/Sprint Communications, L.L.C - FCC File No. ITC 97-127: Application for Authority Pursuant to Section 214 of the communications Act of 1934, as Amended, for Global Authority to operate as an International Switched Resale Carrier between the United States and International Point, Including Mexico.

CC Docket 95-116 - Telephone Number Portability

ITC 98-104-TRC - Application for Authority to Transfer Control of Teleport Communications Group Inc. to AT&T Corp.

Dear Ms. Roman Salas:

On Friday, February 20, 1998, John D. Zeglis, Rick Bailey and I met with Chairman William E. Kennard, Thomas C. Power, his Legal Advisor and James D. Schlichting, Chief, Competitive Pricing Division. During the meeting we discussed: 1) the need to reduce access charges to cost; 2) how best to insure competition in Mexico is not stifled by above-cost accounting rates and other anti-competitive structures currently in place; 3) the need for speedy resolution of any outstanding number portability issues to ensure its deployment according to schedule in a manner that ensures that its costs are recovered on a competitively neutral basis; and 4) the pro-competitive nature of AT&T's proposed acquisition of Teleport Communications Group Inc. Positions taken were consistent with AT&T's previous statement on record in those proceedings.

Due to the lateness of the day, two (2) copies of this Notice are being submitted on the following business day to the Secretary of the Federal Communications Commission in accordance with Section 1.1206(a)(2) of the Commission's rules

Sincerely,

Betsy J. Brady

Dear Ms. Roman Salas:

On Friday, February 20, 1998, John D. Zeglis, Rick Bailey and I met with Commissioner Harold Furchtgott-Roth and Kevin Martin, his Legal Advisor. During the meeting we discussed: 1) the need to reduce access charges to cost; 2) how best to insure competition in Mexico is not stifled by above-cost accounting rates and other anti-competitive structures currently in place; 3) the need for speedy resolution of any outstanding number portability issues to ensure its deployment according to schedule in a manner that ensures that its costs are recovered on a competitively neutral basis; and 4) the pro-competitive nature of AT&T's proposed acquisition of Teleport Communications Group Inc.
