**Subject:** fix the 888/800 number policy for paging companies or . . .

I just received a letter from my paging company stating that they will either charge me for 888/800 access or block my calls when a pay phone is used.

Fix this policy please.

thanks.

To whom it may concern,

There is a runaway concern in this country that everything has to have a charge attached to it. This ruling charging for an 800 call from a pay phone is now no exception. Where does the charging for everything stop? I recently went to a park with my child for a day out. It cost each of us a dollar, a small price right. Well tax money should pay for that and money that longdistance and local telephone companies make on all of us should more than cover the cost of 800/888 calls from payphones. Thank you for reading this.
