# If You Can't Bill It, You're a Charity.

## Convergent Billing.

Simple concept... Complex product.

Fortunately, Teleflex realizes that  
your business can't operate out of  
an empty pocket.

In today's marketplace, a successful telecommunications  
company must offer a broad range of products....debit cards,  
internet access, local and long distance, voice mail, conference,  
fax, travel cards, paging, cellular, information services, and more.

It is vital that your billing system can keep up with your  
continually expanding product lines.

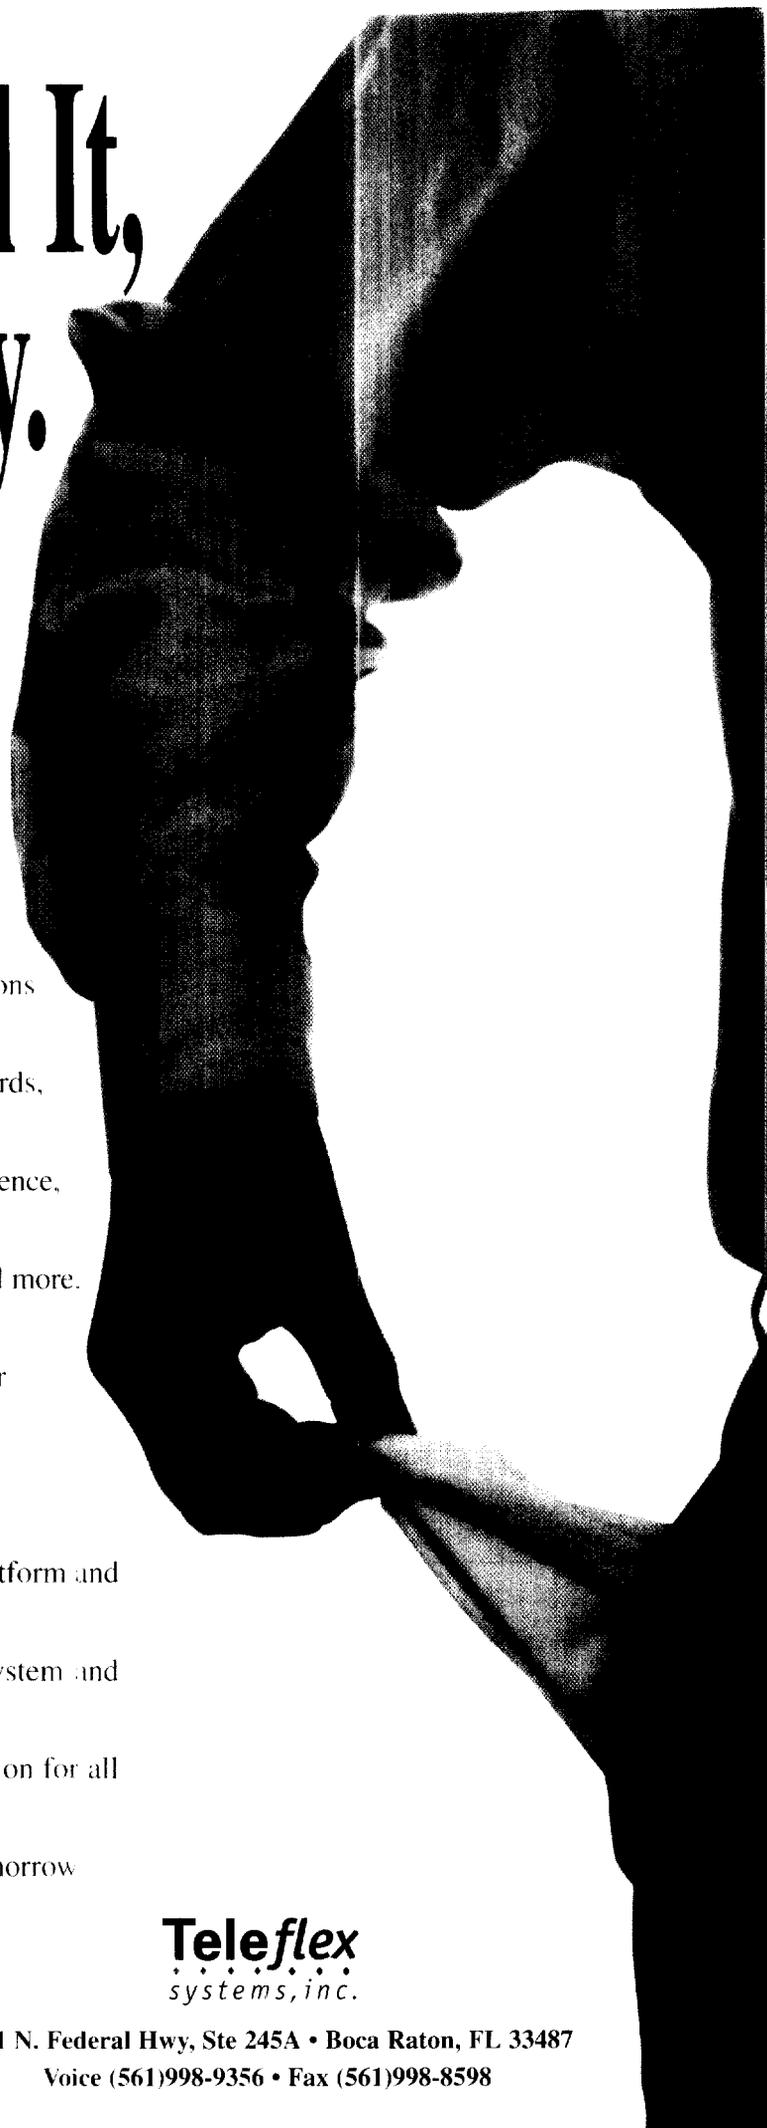

The Teleflex system combines our Genius™ billing platform and  
Intelink™ Voice Response Unit, utilizing one operating system and  
one database. This provides you with one seamless solution for all  
of your billing and voice processing needs, today and tomorrow.

*One platform, One company, One bill.*
