RE: LMCC Petition for Rulemaking (RM-9267)

Dear Ms. Salas:

I strongly support LMCC Petition for Rulemaking (RM-9267). The fast action by the FCC in seeking a public dialogue is commendable.

Our business is engaged in the commercial activity of designing, selling and installing two-way radio systems to industry, institutions, and government entities throughout eastern Pennsylvania and parts of New Jersey. We have been in this business for over thirty years and have customers depend on private two-way radio systems to improve the safety and efficiency of their operation.

A private two-way radio system provides communications in a way that cellular and PCS phone type systems cannot. Our customers have a need for instant, fleet-wide communications. Private systems may be designed in many different configurations allowing us to meet the specific coverage requirements of our customers.

In many instances, we are unable to provide private two-way radio systems to customers who could derive benefit from such a system due to the fact that we are unable to locate a suitable radio frequency. These customers are unable to enjoy the safety and productivity that is possible through the use of a private two-way radio system. Surely, this is not in the public interest.

The FCC should proceed as quickly as possible with this petition. We are experiencing strong economic growth in Pennsylvania and the lack of spectrum is a major impediment for both my company and our customers. Thank you for your prompt attention to this matter.

Sincerely,

Charles F. Adams
President

Re: LMCC Petition for Rule Marketing (RM-9267)

Dear Ms. Salas:

I strongly support LMCC Petition for Rule Marketing (RM-9267). The fast action by the FCC in seeking a public dialogue is commendable.

Our business is engaged in the commercial activity of designing, selling, and installing two-way radio systems to industry, institutions, and government entities throughout Florida. We have been in this business for more than ten years and currently employ 20 people. Our customers depend on private two-way radio systems to improve the safety and efficiency of their operation.

A private two-way radio system provides communications in a way that cellular and PCS phone type systems cannot. Our customers have a need for instant, fleet-wide communications. Private systems may be designed in many different configurations allowing us to meet the specific coverage requirements of our customers.

In many instances, we are unable to provide private two-way radio systems to customers who could derive benefit from such a system due to the fact that we are unable to locate a suitable radio frequency. These customers are unable to enjoy the safety and productivity that are possible through the use of a private two-way radio system. Surely, this is not in the public interest.

The FCC should proceed as quickly as possible with this petition. We are experiencing strong economic growth in Florida and the lack of a spectrum is a major impediment for both my company and our customers. Thank you for your prompt attention to this matter.
