Re: *Amendment of Parts 21 and 74 To Enable Multipoint Distribution Service and Instructional Television Fixed Service Licensees To Engage In Fixed Two-Way Transmissions -- MM Docket No. 97-217 and RM-9060: NOTICE OF EX PARTE COMMUNICATION*

Dear Ms. Salas:

On Friday, June 26, 1998, the undersigned met with Rick Chessen, Senior Legal Advisor to Commissioner Tristani, on behalf of the group of over 110 participants in the wireless cable industry that submitted the petition for rulemaking that commenced this proceeding (the "Petitioners").

The purpose of the meeting was to discuss the proposals advanced by the Petitioners to protect Multipoint Distribution Service and Instructional Television Fixed Service from harmful electrical interference, focusing primarily on the Petitioners' proposed retention of the mandatory 0 dB adjacent channel desired-to-undesired signal interference protection ratio, the development of a conservative methodology for predicting compliance with that ratio, and the "safety net" of requiring the licensee of any response station to cure any unpredicted interference it causes. The substance of the presentation is set forth in the formal comments and reply comments and *ex parte* submissions previously filed by the Petitioners in response to the *Notice of Proposed Rulemaking*.
