### EvaComm Expands Payphone Currency Options

LEESBURG, Fla.—EvaComm Inc. has introduced its payphone currency acceptor module, a retrofittable currency acceptor for existing payphones. The PCAM6700 allows callers to pay for a phone call with \$1 or \$5 bills. In addition, it monitors the line and secures the bills inside a protected chamber after a call is connected. Any attempt to remove the bill results in call cancellation.

**PB-1000**

While offering a handsome and functional solution to coin phone shelf needs, the PB-1000 is excellent for those with a limited budget and/or short wall spans. A self-cleaning shelf coupled with maintenance-free, high-pressure plastic laminate construction further enhances this unit. The PB-1000 lends itself to field repairs without removal of the coin instrument.

**PB-2000**

The PB-2000 features a self-cleaning writing shelf and bright perforated aluminum acoustic panels satisfying the needs of nearly all indoor coin shelf locations. Total instrument security is assured through the metal-to-metal mounting of the instrument to the PBG "safeguard" steel mounting bracket. The PB-2000 also lends itself to field repairs without removal of the coin instrument.

**PRICING: PB-2000**

A medium-sized wall mounted indoor unit, constructed with a steel backboard with acoustical treatment. Standard with walnut, teak, or oak plastic laminate finish on side panels. Partial acrylic sides also available. Anodized aluminum directory shelf. Meets ADA. All units are shipped factory assembled.
