Dear Chairman Kennard,  
We definitely do not want C-Span to be removed from cable. That is the main reason we got cable in our home. It is a news station that gives facts and various sides of any issue. It is quite possibly the best news station, in our view. I urge you to do whatever it takes to continue broadcasting this station on cable.

Mr Kennard- CSpan is our link to our government and every effort must be made to preserve that link. If we lose CSpan we will lose our country and we may also be in danger of revolution. Please...our future depends on it.

C-Span 1 & 2 have been a valuable source of government information for me for many years. Bryan Lambs is like a personal friend. The "Digital Must Carry" proposal would deny this educational channel to many serious voters in the nation causing grave damage, and it must not go forth.

Thank you.
