Re: LMCC Petition for Rulemaking (RM-9267)

Dear Ms. Salas:

I strongly support LMCC Petition for Rulemaking (rm-9267). The fast action by the FCC in seeking a public dialogue is commendable.

Our business is engaged in the commercial activity of designing, selling, and installing two-way radio system to industry, institutions, and government entries throughout Southeast Wisconsin. Our service facility has been at this location for over 18 years and currently employ 18 people. Our customers depend on private two-way radio systems to improve the safety and efficiency of their operation.

A private two-way radio system provides communication in a way that cellular and PCS phone type systems cannot. Our customers have a need for instant, fleet-wide communication. Private systems may be designed in many different configurations allowing us to meet the specific coverage requirements of our customers.

In many instances, we are unable to provide private two-way systems to customers who could derive benefit from such a system due to the fact that we are unable to locate a suitable radio frequency. These customers are unable to enjoy the safety and productivity that is possible through the use of a private two-way radio system. Surely, this is not the public interest.

The FCC should proceed as quickly as possible with this petition. We are experiencing strong economic growth in Southeast Wisconsin and the lack of spectrum is a major impediment for both my company and our customers. Thank you for your prompt attention to this matter.

Sincerely:

  
Thomas J. Kennedy  
Sales Manager
