Subject: Comments to the Chairman

Sharon L. Cook (shcook32@earthnet.net) writes:

I believe what the FCC is planning on doing by giving each local channel a second channel is unconstitutional. You are going to drive channels like C-span and C-span 2 off the air. Most of us out here feel estranged from the federal government as it is we do not want these channels to be taken off the air. At least we get some government information from them and can watch congress in action. It is not right for you to do this and if you do so I and others will be sure you do not want us to know what is going on in our government. So much information is kept secret from us now, we need these two channels.
