Subject: Docket #98-143 CHANGE to Amueter Radio Part 97 rules

Dear Sirs,

I am a current holder of a Tech Plus license and find how you plan to handle the Tech Plus license holders after 1987 as unfair and unjust. I have held a Tech Plus license for 4 years and have also held a Japan 3rd class license for 3 years. I have made contacts and freinds over HF frequicies in over 200 countries. I think that shows that many of us who required Tech plus licenses after 1987 do have the skills and experiance to operate in the General class portions of the amueter bands. I beleave that the ARRL's proposaled license restrucattering plan is the correct way to change the currect rules.

Thanks for lisening

I support the combining of the different class license. I don't see how you keep up with all the paperwork.

I strongly agree that we have to reduce the code requirement (not eliminate it) ie. 5 Words/minute for all classes. We are loosing too many to the internet. Let's catch up with technology. Let's focus on the written portion vs old style code.

Thank you for your time.
