Dear Anita,  
Just a note to thank you so much for your time and empathy regarding Avalon's DTV allotment. Having been an applicant for Avalon 54 for over 13 years, I appreciate all your assistance in helping me realize the dream of taking ethnic television to the digital platform. I truly believe that this programming format will be a perfect merging of community service and high technology while providing the killer application needed for this type of new consumer product. Thanks again, I truly appreciated the time.  
Best Regards, Rosemary Danon
