

Mr. Deusinger,

Thank you for considering our school's application "paper"work for E-Rate funding/programming. We serve a unique population and have seen that technology is able to make a huge impact but have limited resources to make that happen.

By the attached, you will see that Tamara Diaz only helped us with the understanding of the process with E-Rate. She did not make decisions for us; we chose the provider who put in the only fair bid. (the only bid actually).

If there are any questions, please call or respond by e-mail.
Thanks again

Elisabeth Hoke
Director/Principal
