

In response to your letter. I will like to certify that our process for the Funding Year 2014 for the Form 471 was made with a consultant Tamara Diaz Lupoe. She offered her service during a time that our school was going thru difficulties. The Form 470 was completed by me Yesenia Castro the school was with the provider RSISP, this provider without my knowledge and permission submit the Form 471 Application number 955948. The application never was submitted because I receive a new pin number when I submit the Form 470. Tamara Diaz contact us and I ask some question regarding the situation that we was going thru, she explain me how to do the form. During that process the Funding Year 2013 was denied because RSISP was the ones that was submitted all my document previously because they told me that they can submit and fill out the Forms for me, well the documents was out of window. Tamara Diaz she did the appeals and she was in constant communication with USAC because RSISP disconnect the internet service in April 10, 2014 due to the denial letter. In August we receive the Approval Letter for Funding 2013. Tamara Diaz never ask for money neither to sign with a specific provider. The school make decision that need to be approve by the board. The Board decided to choose Caribbean Network because they are the one that was more certain with the needs of the school. The decision was made before any appeals or approvals. If you need more information please contact me at 787-863-1001.

Thanks

Yesenia Castro
