

I will like to appeal for the decision letter **Funding Year 2014 Application Number 936738 FRN 2559312.**

Has been denied for this Funding Year due to my relationship to one of the provider. Like I explain to Mr. Deusinger, I meet with Carlos Vazquez, VP Operation Administrative at Escuela Superior Acreditada P.E.C.E.S. at their school to explain how to apply for funds because he told me that the school never start the process due to all the documentation was in English and the time they call they only have one person that speak Spanish in USAC customer service and they never have a call back. I explained to them that I don't make any suggestion or decision regarding providers I'm only help to fill their Forms if they have any question. Every process Form 470 and 471 the client was involve and also allowed other providers to come and visit the facility during the 28 days. All the documentation was save in his office I don't have any access to quotes or Forms before or after been submitted. Never I been a worker for Caribbean Network neither been part of the board. All the paperwork from IRS and the State of Delaware can proof that information. Also A Piece of Heave Foundation is a nonprofit organization that is committed to help community in need, with the help of various companies. Allen Lupoe is NOT associated with A Piece of Heaven Foundation also I will sent the documentation from IRS. I fell that Mr. Deusinger DO NOT look all the information that was need it to get to a conclusion without all the paperwork and also reevaluation with the client documentation. EVERYTHING was under the USAC standards and supervised by the client. If you have any question and need to contact me, you can do so by email or call at 787-344-9749. Also if you want to contact Carlos Vazquez his number is 787-285-7979 or by email cvazquez@proyectopecesinc.org.

Thanks

Tamara Diaz
