The merger of Comcast and Time Warner will not be for me, an improvement of service. Here in Gallatin, TN Comcast has crappy and slow service and A.T.&T. is even slower. We are stuck in a third world country service and it is a shame. We should be getting 100 GB service and we do not get anywhere near that. Merging with Time Warner will just make a big conglomerate of 2 mediocre companies into one large and pretty much indifferent to the customer companies, bigger and inferior. You broke up A.T.&T. in 1984. Why would you now start making new super large monopolies. I can only assume that the Christmas baskets from the 2 companies are just too much to refuse. Don't do it. Make more competition and the service will get better and more reasonable for us consumers. It is time we caught up with the rest of the advanced countries of the world.
