So, government.

first off id like to say you are a fucking gapping smelly wet asshole. you let us die for your own benefit(money) you order us to get vaccinated and take pills, you regulate our tv and news networks, and you completely MINDFUCK OUR CHILDREN. if i could id walk into every single Gov't officials house and FUCKING BLOW YOUR BRAINS OUT you SICK FUCKS. and now, unsurprisingly you are trying to control what we see, read, and the speed of that on our (the peoples) internet. fuck you. i dont agree or support it. goodbye

P.S obama i know who you are and with the power of allah you will get whats coming to you
