Reference: FCC DA 14-1292 PS Docket No. 14-148

I am writing this letter in support of ACD Telecom's request to be certified as a frequency coordinator for Part 90 public safety frequencies.

Several years ago, Vermont sought out the services of a consultant that had the extensive knowledge, experience and expertise in frequency coordination to assist Vermont with licensing the national VHF and UHF interoperability frequencies throughout the State of Vermont and specifically along the US / Canadian border.

Through Vermont's competitive procurement process, ACD Telecom was selected to fill this important role.

From the start of the project, ACD Telecom demonstrated an exceptional level of professionalism, technical competency and regulatory knowledge. Their customer service was nothing less than extraordinary. Throughout the project, ACD Telecom worked closely with the staff here in Vermont to ensure our team was well informed.

By certifying ACD Telecom as frequency coordinator, Public Safety users will have a wider choice of frequency coordination service providers to choose from. Hopefully the additional competition will result in lower cost of coordination services.

If you have any questions please call or email me ([Terry.LaValley@state.vt.us](mailto:Terry.LaValley@state.vt.us)).

Sincerely,

A handwritten signature in cursive script that reads "Terry M. LaValley".
