RFD TV should be allowed to have programming as part of this merger of giants. Rural news and other rural programs are very important to America's TV subscriber. We enjoy the wholesome country/western shows that all of the family can enjoy and appreciate. Please don't let this merger slap aside the interests and beliefs of the working class. America needs RFD for its farming programs, 4H support, rodeo support, horse shows and honest music. RFD connects the urban and the rural communities in their quest to discover their heritage. Please keep RFD TV viable on our nation's programming schedules. USA needs and wants it. Thank you.
