Blackfoot Telephone Cooperative, Inc. provides voice and broadband services to western Montana. After reviewing the FCC E-Rate map, we found a few discrepancies. Please correct the FCC E-Rate Maps of Fiber Connectivity to Schools and Libraries to reflect that fiber connectivity currently exists at the following locations:

Montana

Alberton School, NCES ID: 300186000003
Alberton 7-8, NCES ID: 300186001007
Alberton High School, NCES ID: 300186001004
Plains Elementary School, NCES ID: 302082000622
Plains 7-8, NCES ID: 302082000896
Plains High School, NCES ID: 302085000623
St. Ignatius High School, NCES ID: 300611000175
St. Ignatius Middle School, NCES ID: 300611000994
St. Ignatius Elementary School, NCES ID: 300611000174
St. Ignatius Library
St. Regis School, NCES ID: 302493000714
St. Regis High School, NCES ID: 302493000715
St. Regis 7-8, NCES ID: 302493001009

Please contact me if you have any questions.

I noticed on the map that it states Eastland Community Unit School District 308 has 30.6% of schools with fiber access. We actually have fiber at all of our buildings with a 10 Gb fiber WAN. Our internet comes through our fiber connection as well.

We are 100% covered with Fiber within our school district. It is our own. We have a fiber connection to the internet thru CIRBN, LLC www.cirbn.org If you get with them you can get all their connections to Libraries and Schools. I know the Library in Eureka is also on CIRBN.

Hello,

Per the CoSN newsletter, we should contact you if our district's information on the FCC Maps of Fiber Connectivity are not correct.

100% of schools in the Bainbridge Island School District have fiber access.

I recently received a link to this site ([Maps of Fiber Connectivity to Schools and Libraries.](#)) from the Consortium for School Networking. I naturally found our School District and was surprised to see that your data is significantly out of date. We have 100% of our schools on fiber with a minimum connection speed of 1 Gb. Our external connection is 500 Mb. Would you please let me know the source of your data so that we can determine if we made an error in reporting on our end?

Thank you,

Randy Averill
