Re: *Ex Parte* Notice: *Terrestrial Use of the 2473-2495 MHz Band for Low-Power Mobile Broadband Networks* – IB Docket No. 13-213

Dear Ms. Dortch:

On October 15, 2014, L. Barbee Ponder IV, General Counsel & Vice President, Regulatory Affairs, for Globalstar, Inc. (“Globalstar”), Steve Berman of Lawler, Metzger, Keeney & Logan, LLC, and I met with Renee Gregory, Legal Advisor to Chairman Tom Wheeler, to discuss the status of the above-captioned proceeding. At the meeting, we expressed support for the rules the Commission proposed in November 2013 to allow Globalstar to provide low-power terrestrial mobile broadband service in its own licensed spectrum at 2483.5-2495 MHz and adjacent, unlicensed spectrum at 2473-2483.5 MHz.<sup>1</sup> We urged the Commission to adopt its proposed rules expeditiously to add 22 megahertz to the nation’s wireless broadband spectrum inventory and ease the congestion that is diminishing the quality of Wi-Fi service at high-traffic 802.11 hotspots and other locations.

Pursuant to section 1.1206(b)(2) of the Commission’s rules, 47 C.F.R. § 1.1206(b)(2), this *ex parte* notification is being filed electronically for inclusion in the public record of the above-referenced proceeding.

Respectfully submitted,

/s/ Regina M. Keeney  
Regina M. Keeney

cc: Renee Gregory
