**Re: In the Matter of Promoting Interoperability in the 700 MHz  
Commercial Spectrum, WT Docket No. 12-69**

Dear Ms. Dortch:

On Thursday, October 30, 2014 Joan Marsh, Michael Goggin, and the undersigned all from AT&T Services, Inc. met with Chris Helzer, Thomas Derenge, and Tom Tran of the Wireless Telecommunications Bureau to discuss the first Progress Report on AT&T Commitments in this proceeding. AT&T answered questions for the staff related to the report and the only clarification noted was that the Multiple Frequency Band Indicator feature is being delivered as part of a larger release associated with 3GPP Release 11 features.

Pursuant to the Commission's rules, a copy of this notice is being filed electronically in the above-referenced docket. Please do not hesitate to call me if you have questions.

Sincerely,

/s/ Joseph P. Marx  
Assistant Vice President, AT&T Services Inc.
