Docket No. 14-195

DOCKET FILE COPY ORIGINAL

SECTION 63.71 APPLICATION

CC Fiberlink, LLC, through its undersigned counsel and pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and Section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, hereby files this Application on behalf of its affiliates Charter Fiberlink CA-CCO, LLC, Charter Fiberlink - Nebraska, LLC, and Charter Fiberlink - Tennessee, LLC (collectively, the "Charter Fiberlink Companies") and Charter Advanced Services (CA), LLC, Charter Advanced Services (NE), LLC, and Charter Advanced Services (TN), LLC (collectively, the "Charter Advanced Services Companies") to discontinue offering a certain interconnected VoIP service in California, Nebraska and Tennessee (the "Service Areas").

In support of its Application, CC Fiberlink submits the following information:

Names and address of carriers:

This Application is submitted on behalf of Charter Fiberlink CA-CCO, LLC, Charter Fiberlink - Nebraska, LLC, Charter Fiberlink - Tennessee, LLC, Charter Advanced Services (CA), LLC, Charter Advanced Services (NE), LLC, and Charter Advanced Services (TN), LLC.

The address for all of the Charter Fiberlink Companies and Charter Advanced Services Companies is:

12405 Powerscourt Drive
St. Louis, Missouri 63131

Date of planned service discontinuance:

The Charter Fiberlink Companies and Charter Advanced Services Companies intend to discontinue offering the service described in this Application to new customers on December 1, 2014, or as soon thereafter as federal approval may be obtained. The Charter Fiberlink Companies currently have no customers for the service. The Charter Advanced Services Companies have no current plans to discontinue the service provided to their existing customers.

Points of geographic areas of service affected:

Charter Fiberlink CA-CCO, LLC and Charter Advanced Services (CA), LLC currently offer the service that is the subject of this Application in parts of the State of California. Charter Fiberlink - Nebraska, LLC and Charter Advanced Services (NE), LLC currently offer the service that is the subject of this Application in parts of the State of Nebraska. Charter Fiberlink - Tennessee, LLC and Charter Advanced Services (TN), LLC currently offer the service that is the subject of this Application in parts of the State of Tennessee.

Brief description of the type of service affected:

The Charter Fiberlink Companies and the Charter Advanced Services Companies propose to discontinue offering to new customers an interconnected VoIP service characterized as a basic local business line. This service provides local calling only. Customers may elect to receive long distance service from the Charter Fiberlink Company or Charter Advanced Services Company from which they receive local service or from affiliated or unaffiliated intraLATA, interLATA and/or international telecommunications carriers. The Charter Fiberlink Companies

offer this service to business customers in California, Nebraska and Tennessee but currently have no customers for the service. The Charter Advanced Services Companies currently offer this service to business customers in California, Nebraska and Tennessee and have no current plans to discontinue providing the service to their existing customers.

The Charter Fiberlink Companies have determined to no longer offer this service in the states in which they operate. The Charter Advanced Services Companies have determined to no longer offer this service to new business customers but intend indefinitely to continue to provide it to existing business customers. Similar services are available in the Service Areas from incumbent local exchange carriers and other telecommunications carriers and interconnected VoIP service providers, and the Charter Advanced Services Companies also continue to offer similar services bundled with long distance service.

Brief description of the dates and methods of notice to all affected customers:

The Charter Fiberlink Companies and the Charter Advanced Services Companies have not provided any customer notices because there are no affected customers. The Charter Fiberlink Companies have no existing customers for this service, and the Charter Advanced Services Companies propose only to discontinue offering the affected service to new customers. The Charter Advanced Services Companies intend to continue providing the affected service to their existing business customers at the same rates, terms and conditions at which they currently provide the service to those customers until individual customers voluntarily terminate their service or until service to individual customers is terminated for non-payment or violation of the terms of service. There will be no change in the service provided to existing customers after the offering to new customers is discontinued. Both before and after discontinuance, existing Charter Advanced Services customers will have the ability to add or delete a second line, to add

or remove vertical features on an a la carte basis, and to select an interexchange carrier of their choice. Service to these customers will not otherwise be reduced or impaired in any way. Accordingly, notice to existing customers of the discontinuance of the service is unnecessary and would be potentially confusing. In the event that the Charter Advanced Services Companies in the future decide to discontinue providing the affected service to their then-existing customers, they will provide the then-existing customers with appropriate notice and submit a Section 63.71 application for authority to do so.

Non-dominance of the carrier with respect to the service to be discontinued:

The service to be discontinued is an interconnected VoIP service. Accordingly, the Charter Fiberlink Companies and Charter Advanced Services Companies are non-dominant with respect to the service as a matter of law.

Service:

In accordance with Section 63.71 of the Commission's rules, CC Fiberlink has mailed copies of this Application to the Governors of the States of California, Nebraska and Tennessee, the California Public Utilities Commission, the Nebraska Public Service Commission, the Tennessee Regulatory Authority and the United States Secretary of Defense.

Conclusion

The public convenience and necessity will not be adversely affected by the discontinuance of the offering of this service because no existing customer will be affected and comparable services are available from other providers in the market. CC Fiberlink respectfully requests that the Commission approve the Section 63.71 Application of the Charter Fiberlink Companies and Charter Advanced Services Companies to discontinue offering an interconnected

VoIP service characterized as a basic local business line to new business customers in California, Nebraska and Tennessee.

Questions regarding this application may be addressed to the undersigned.

Respectfully submitted,

Charles A. Hudak
