Re: Docket No. 12-268

Dear Ms. Dortch:

I am a Production Manager and Tech Director for Hillcrest Baptist Church who uses over 30 wireless mics and 20 wireless monitor systems at our main campus as well as 12 wireless channels at our 2nd campus.

I agree with Sennheiser's proposal to reserve two exclusive blocks of UHF for critical mics & ear monitors. Wireless mics and monitors are critical for our bi-weekly needs as well as the special events hosted here for many different community businesses and organizations. We would no longer be able to offer our facility to these businesses and organizations who love having their events here.

I also agree with Sennheiser's proposal for auction winners to compensate wireless mic owners for any equipment that they will not be able to use after spectrum repacking. Losing the equipment will cause significant hardships and financial strain on our church. Both of our campuses will be affected and suffer tremendously from the loss of using wireless mics and monitors.

Respectfully submitted,

Gregory D Klimetz
