Re: Docket No. 12-268

Dear Ms. Dortch:

I am a sound engineer and small business operator. Our company specifies, designs, rents, sells and uses wireless microphone, monitor and intercom systems.

I strongly agree with Sennheiser's proposal to reserve two exclusive blocks of UHF for critical mics & ear monitors. Having reliable prime frequencies for the houses of worship, theaters, arts organizations and other users is vitally important.

I believe Sennheiser's proposal that auction winners compensate wireless mic owners for any equipment that they will not be able to use after spectrum repacking is fair and balanced. The potential cost of replacing existing stock would be prohibitive to my company and my clients.

Respectfully submitted,

Stephen Whittenhall
