Re: WC Docket No. 10-90, WC Docket No. 14-93
Connect America Phase II Challenge Process

To whom it may concern:

North State Telephone Company ("North State") has attached for filing FCC Form 505 and supporting documentation as specified in WC Docket No. 14-93. North State seeks confidential treatment under the FCC's Protective Order in WC Docket No. 10-90 for the evidence supporting its response. North State has submitted service area maps confidentially via email to Form505@fcc.gov. The maps depict a portion of North State's rate-of-return study area in relation to the challenged census block, showing the census block to be located entirely within North State's rate-of-return study area, with no portion of the challenged census block falling within the adjacent CenturyLink price-cap study area. Therefore, North State requests the census block indicated on the FCC Form 505 maintain its initial designation as ineligible for Phase II support.

Sincerely,

/s/ Andrew Stevenson
