Dear FCC, we need real net neutrality. Protect internet users from monopolistic ISPs and don't let companies censor, slow down, or block websites while requiring other sites to pay for faster service. Please stand up for all Internet users and our right to communicate. Any type of "fast lane" introduced would have an unintentional "slow lane" that start-ups and small content providers would have no chance competing with. I'm disappointed at the FCC as a whole, as well as lawmakers who are in support of a broken internet. I know that I support an open, uncensored internet, one that is free of Mafia-style shake downs and threats of poor connection speeds.
