

# **EXHIBIT 6**

## **FACTUAL STATEMENT**

## FACTUAL STATEMENT

I, Eric Billeter, under the penalty of perjury, do hereby declare:

1. I am the Technology Services Architect for Cable One, Inc.;
2. As Technology Services Architect, I coordinate with the technicians and system managers who oversee Cable One's customer relationships and cable plant/cable footprint and so have detailed knowledge of where Cable One has customers and facilities and the extent of the service Cable One offers to those customers.
3. I have reviewed the Wireline Competition Bureau's list of challenged census blocks published with the Bureau's September 26, 2014 Public Notice for which the Bureau has determined that a prima facie case has been made that those census blocks should be changed from served to unserved for the purposes of determining eligibility for Connect America Phase II support.
4. As Technology Services Architect, I know that Cable One currently Serves – as defined in the Phase II Challenge Process Guide, DA 14-864 – 5 of the challenged census blocks that were included on the Bureau's September 26, 2014 list of census blocks for which a party has made a prima facie challenge that the block should be eligible for Phase II support. The list included as part of Cable One's Form 505 in response to these challenges in WC Docket No. 14-93 accurately reflects these 5 census blocks.
5. For each and every one of these 5 census blocks, Cable One:
  - (a) offers broadband speeds of at least 4 Mbps downstream and 1 Mbps upstream, a usage allowance of at least 100 GB, and latency of 100 ms or less for prices that are reasonably comparable to that for similar services in an urban area;

(b) advertises and otherwise holds itself out to the public as able and willing to provide voice and broadband to customers in that census block;

(c) has wireline voice and broadband-capable physical assets in or adjacent to that census block; and

(d) has or has previously had voice or broadband customers in that census block.

6. On behalf of Cable One, I am prepared to produce additional evidence to substantiate these claims to the FCC staff upon request.

Date: November 10, 2014
