Re: Docket No. 12-268

Dear Ms. Dortch:

I am a sales representative whose client base relies on wireless microphones and monitoring systems to work properly for day to day operation. I'm also a musician that uses wireless microphones in performance.

I agree with Sennheiser's proposal to reserve two exclusive blocks of UHF for critical mics & ear monitors. Without a dedicated frequency band my clients and I will be unable to reliably use thousands of dollars of perfectly good equipment.

I agree with Sennheiser's proposal for auction winners to compensate wireless mic owners for any equipment that they will not be able to use after spectrum repacking. Hard earned money has been spent on this gear, and for the FCC to force us to discontinue their use when they're still fully functional, we should be compensated.

Respectfully submitted,

Brian Kaphingst

Salesperson – Full Compass Systems
