Re: Docket No. 12-268

Dear Ms. Dortch:

My name is Tyler Hummel. I am a Location Audio engineer working in Chicago, IL who uses wireless mics and monitors.

I agree with Sennheiser's proposal to reserve two exclusive blocks of UHF for critical mics and ear monitors. Availability of wireless frequencies is critical in this line of work for our ability to effectively transmit audio signals.

I also agree with Sennheiser's proposal for auction winners to compensate wireless mic owners for any equipment that they will not be able to use after spectrum repacking. I am currently attending school in Chicago and I do not have the money to replace the wireless gear that I currently have with gear that complies with the FCC's standards.

Respectfully submitted,

Tyler Hummel
