**RE: Ex parte presentation in WC Docket No. 13-184**

Dear Madam Secretary,

The SHLB Coalition previously submitted a study estimating the costs of deploying fiber to the remaining schools and libraries that do not have such fiber connections. The original filing inadvertently included draft versions of tables 15, 16 and 17 that were inconsistent with the text of the report. We are re-filing a corrected version of the report with the correct tables included. None of the text of the report is different from what was originally filed.

Sincerely,

John Windhausen, Jr.  
Executive Director  
SHLB Coalition
