

My comment is as follows. I have watched the tv shows degrade over the years where I am now dismayed and annoyed that we are subject to 24 hour info-mercials and an unbearable amount of commercials allowed during movies and tv shows. The FCC has allowed this as well as free reign of subject matter that is inappropriate for kids/teens. Now we have a tv channel that is showing shows that are not represented on the mainstream tv channels and it is not being protected as it should. Do you always have to bow to big business demands, or is there a tiny bit of space for this tv channel to continue? I hope you will allow KVVN(TV) channel to continue. It's the least you can do.
