Station WJLP: Channel 3 Middletown NJ / NY, was cut off a two days ago, now, back on the air, but, with a threat of it being removed again on Dec 1, 2014. the station is recieved over the air with digital box in the NYC area of Queens NY. I am a caretaker to a elderly dementia relative, of very low income and this free TV station with familiar old shows were theraputic in a small, but, substancial way. To have it removed over technical issues would be unfortunate and provide hardship to those unable to afford cable. Thank You

Frank
