I strongly oppose the action of moving or forcing WJLP off of the air in New Jersey for several reasons

- 1) As expressed in WJLP's petition to FCC, every state has the right, by law, to own a major VHF channel. I agree with their assessment that allowing WJLP to continue to air over channel 3 in New Jersey will have NO harm or injury to other stations as they have already proven this during their testing authority
- 2) Free and fair competition in the TV/Video industry is absolutely needed to bring about the best quality products in the industry. I feel that this is an attempt by major companies to bully smaller companies off of the air, using the improper interpretation of FCC rules.
- 3) The FCC in its decision making MUST follow the laws that govern these specific matters and NOT try to reinterpret them to make rulings that are out of bounds with them. I have read WJLP's response for reconsideration I firmly agree with them and believe that if the ruling stands and WJLP is forced off of channel three, that it would be unlawful. In my opinion WJLP has made its case and should be allowed to continue on the air, on channel 3 without further harassment. Thank you
