You have only approved VHF Channel 3-10 for up to Dec 1, 2014. I don't have cable TV, I only have an antenna. In north western New Jersey we don't get UHF TV (where most network channels went) we only get VHF, so we need more VHF stations. Channel 3-10 has a very strong signal and great programming and it MUST stay on the air permanently not just for a few weeks. Please keep this channel on the air. Thank You
