RE: Ex parte presentation in WC Docket No. 13-184

Dear Madam Secretary,

The SHLB Coalition previously submitted a study estimating the costs of deploying fiber to the remaining schools and libraries that do not have such fiber connections. The SHLB Coalition also filed a corrected version of the study on Nov. 11 that fixed a single row in tables 15, 16 and 17. That corrected version also contained an error in interpreting the FCC's data regarding the number of schools and libraries with and without fiber. Thus, we are hereby filing a further corrected version of the study that adjusts Table 3 and further updates the row of schools and libraries without fiber in tables 15, 16 and 17. Slight changes were made to the text to reflect the updated figures, but the overall conclusions of the report have not changed. These adjustments more accurately reflect the data provided by the FCC in its maps of fiber for schools and libraries.

Sincerely,

John Windhausen, Jr.
Executive Director
SHLB Coalition
